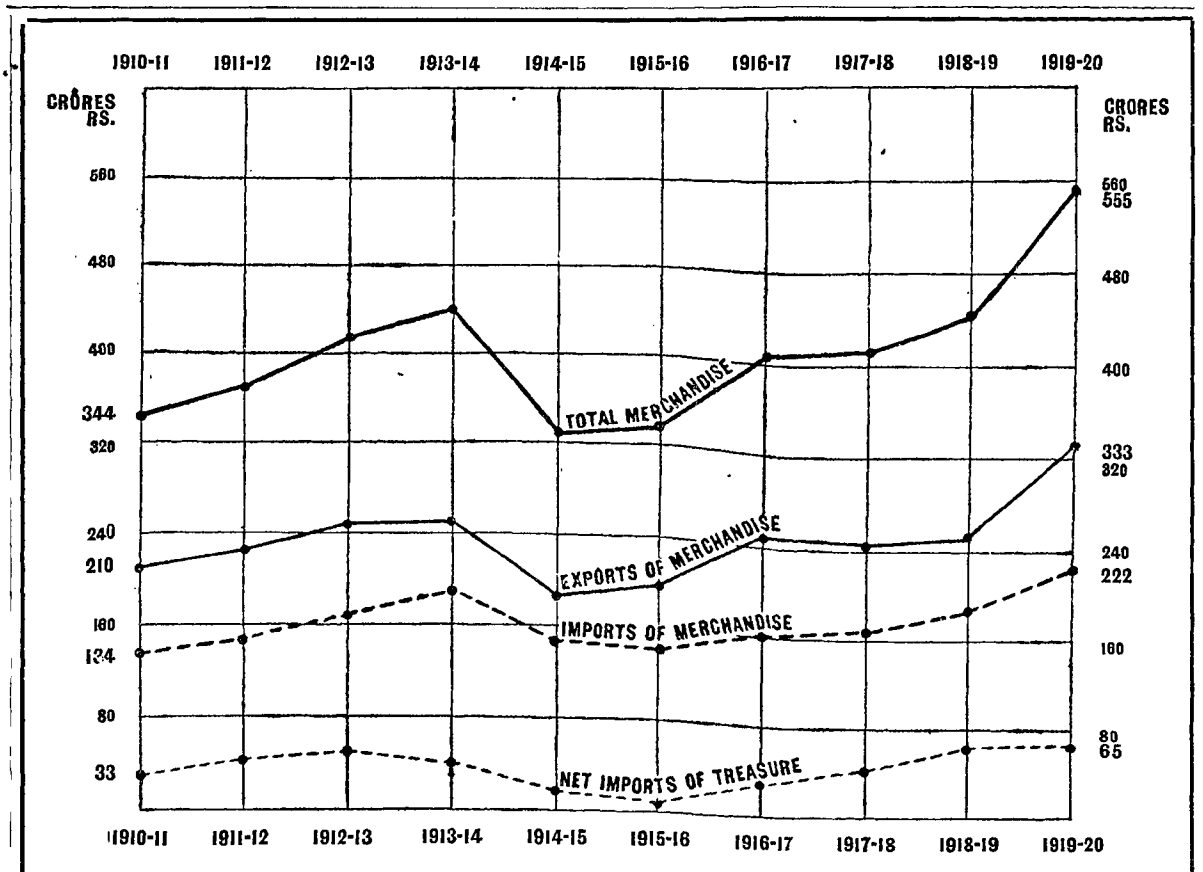
I. THE FOREIGN SEA-BORNE TRADE OF INDIA.

(*a*) IN THE LAST DECADE

(1910-11 TO 1919-20)

(PRIVATE AND GOVERNMENT)

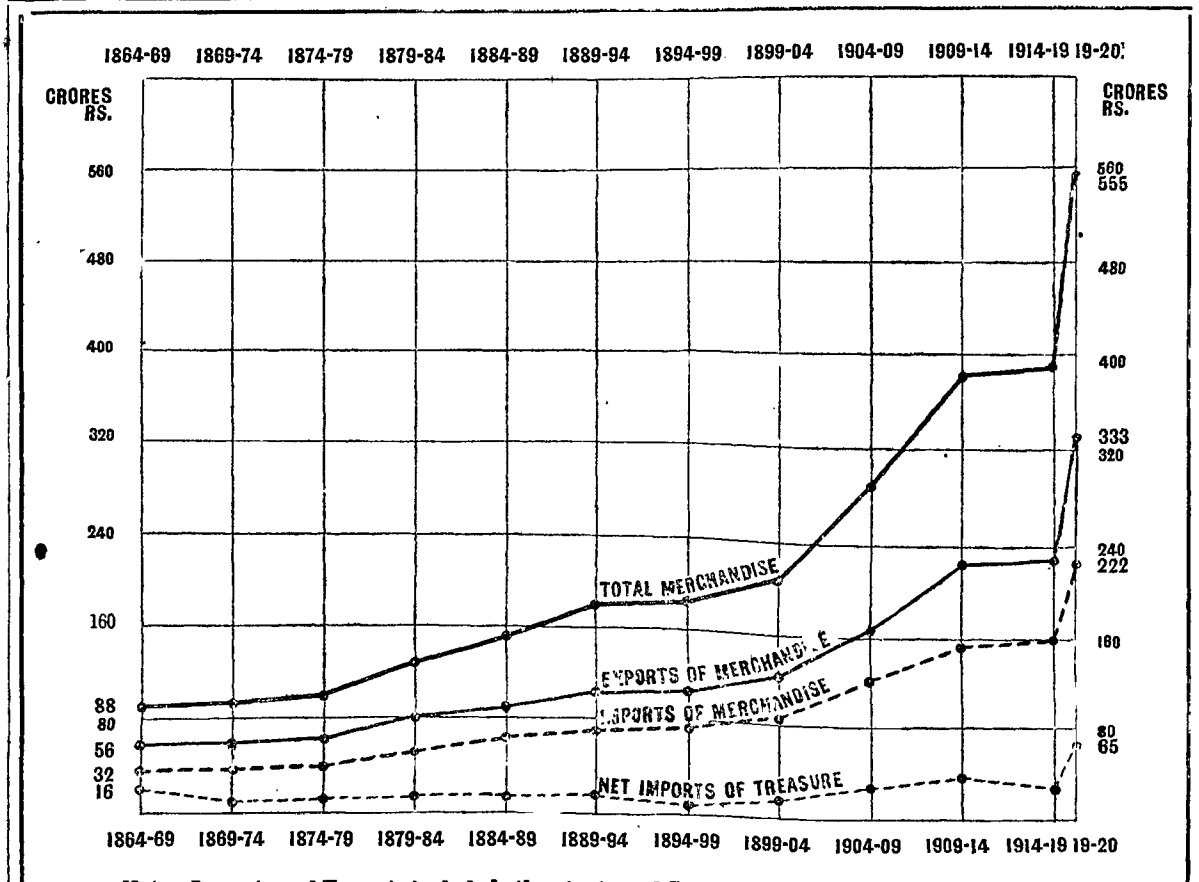


Note.—Imports and Exports include both private and Government transaction. (See footnotes.)

(*b*) DURING THE LAST 55 YEARS

(1864-65 TO 1919-20)

(PRIVATE AND GOVERNMENT)



Note.—Imports and Exports include both private and Government transaction. (See footnotes.)

Note.—1. In chart 1(b) the curves are based on averages for 5 years.

2. Total merchandise includes Imports and Exports, both private and Government Stores.

3. Imports of merchandise are inclusive of Government Stores.

4. Exports of merchandise are inclusive of re-exports and Government Stores.

5. Net imports of treasure are the imports minus the exports of gold and silver, both private and Government. The exports of treasure are ordinarily very much less than the imports.

Statistics of British India

Vol. I.—Commercial Statistics

INTRODUCTORY NOTE

The statistical tables in this volume deal with industries, mills, mines, joint-stock companies, foreign trade and shipping, post office, telegraphs, railways, and irrigation. The statistics have been brought up to the period ending 31st March, 1920. Three charts showing (*i*) the growth of the foreign seaborne trade of India, (*ii*) capital outlay, gross earnings, and working expenses of Indian Railways, and (*iii*) gross earnings and working expenses on the principal systems of Railways in India, have been added, together with an index for easy reference.

SUMMARY TABLE

Table No. 1 gives the salient features of each section of the Commercial Statistics included in this volume.

INDUSTRIAL CENSUS

[For Table, see page 5]

Table No. 2 shows the main results of the Industrial Census taken at the time of the Population Census of 1911. A caveat, however, should be added regarding the possibility of obtaining an industrial census from a population census. Experience has proved that one cannot hope for an industrial census from a population census, especially in India, for several reasons as explained in Appendix K to the "Report on the Enquiry into the Rise of Prices in India."

LARGE INDUSTRIAL ESTABLISHMENTS

[For Tables, see pages 6 to 51]

Factory laws

The conditions of factory labour until 1st July, 1912, were regulated by the Indian Factories Act, XV of 1881, as amended by Act XI of 1891. The decision to undertake further legislation was arrived at after comprehensive enquiries. An important factor in the case was the increasing use of electric light in the Bombay mills, which radically changed the conditions prevailing when the Act of 1891 was passed and had abolished the security that operatives would not be employed for more than 12 hours a day on the average. The question of the hours of employment in textile factories was brought into prominence by the period of prosperity that the cotton industry began to enjoy in the cold weather of 1904-05, a large number of operatives being regularly employed for 15 hours a day or even longer. Owing to complaints regarding the long hours worked in many mills, the Government of India in 1906 appointed a small Committee to conduct a preliminary inquiry into the conditions of labour in textile factories. The conclusions arrived at by this Committee formed the basis of an investigation, extending to all factories in India by a representative Commission. The recommendations of the Committee and of the Commission having been considered by the Government of India and the Local Governments, a Bill was introduced in July, 1908, to amend and consolidate the law relating to factories, and was finally passed into law as Act XII of 1911.* The new Act, which came into force on 1st July, 1912, defines the term "factory" as any premises wherein, or within the precincts of which, steam, water or other mechanical power or electrical power is used in aid of any process for, or incidental to, making, altering, repairing, ornamenting, finishing or otherwise adapting for use, for transport or for sale any article or part of an article. The term does not apply to (*a*) any mine subject to the operation of the Indian Mines Act, or (*b*) any electrical generating or transforming station, or (*c*) any indigo factory, or (*d*) any factory situated on and used solely for the purposes of a tea or coffee plantation, or (*e*) any factory wherein on no day in the year are more than forty-nine persons simultaneously employed: provided that the Local Government may apply all or any of the provisions of this Act to any factory or class of factories wherein any specified number of persons, not being less than twenty, are on any day simultaneously employed. The Act has limited the hours within which children and women may be employed, and has further restricted the employment of women by night except in certain cases. It also contains a number of new provisions for securing the health and safety of the operatives, making inspection more effective, and securing generally the better administration of the Act.

Definitions of the term "factory"

* This Act is now under amendment.

Tables Nos. 3, 4, 5, and 6 deal not only with factories, as defined above, which come under the operation of the Indian Factories Act, but also include concerns which do not come under the operation of the Act but which are considered to be of sufficient industrial importance, excluding mines, electrical generating stations, indigo factories, and factories situated on and used for the purposes of tea and coffee plantations. Tables Nos. 7, 8, 9, and 10 deal only with factories coming under the operation of the Act. Industrial concerns owned by Government, State Darbars, and local bodies are dealt with in table No. 3. Those owned by companies or individuals are dealt with in tables Nos. 4, 5, and 6, factories worked by mechanical or electrical power and those not so worked being shown separately in tables Nos. 5 and 6.

Number of concerns

The total number of factories and industrial concerns of all classes dealt with in these tables was 5,312 in 1919 as against 4,789 in 1918. From the reports on the working of the Indian Factories Act it appears that in 1919 there were within the scope of the Act 131 factories, belonging to the State and to local bodies, such as municipalities and port trusts, as against 130 in 1918. Among these there were 31 printing presses, 19 railway workshops, 22 iron foundries and canal and engineering workshops, and a considerable number of military arsenals and factories. In addition to these 131 factories, there were 28 more concerns which did not come within the operation of the Indian Factories Act. The total number of factories owned by Government and local bodies in British India was thus 159 in 1919, as against 161 in 1918, the important of these being shown in the margin. These figures do not include factories situated in Indian States and owned by State Darbars. So far as reports had been received, the total number of factories owned by State Darbars was 25.

	1918	1919
Printing presses	32	33
Iron foundries and Canal and Engineering workshops	23	24
Railway workshops	19	19
Waterworks	11	11
Dairy farms	7	6
Municipal workshops	8	8
Arsenals	7	7
Clothing agencies	8	6
Forage presses	5	5
Arms and ammunition	6	6

Of the factories owned by companies or individuals, those worked by mechanical or electrical power numbered 4,376 in 1919 as against 4,023 in 1918; the more important of these are stated in the margin. These represent 90 per cent of the total number of factories worked by mechanical or electrical power in all India (including those in Indian States so far as reported). The factories created by the cotton industry exist principally in Bombay and those relating to the jute industry in Bengal; while rice mills and saw mills are naturally mostly in Burma. Of the other factories there are none largely assigned to any particular province. Besides these, there were 752 concerns not worked by mechanical or electrical powers, including 161 tile and brick factories, 79 lac factories, 79 tanneries, 55 stone factories, 42 metal works, 15 silk filatures, and 15 breweries.

	1918	1919
Cotton gins and presses	1,785	1,934
Rice mills	591	608
Cotton mills	274	275
Oil mills	149	168
Saw mills	137	139
Jute presses	119	144
Printing presses	111	116
Jute mills	75	75
Engineering workshops	95	118
Tile and brick factories	69	94
Railway workshops	64	6
Iron and brass foundries	46	55
Flour mills	49	55
Sugar factories	32	37
Silk filatures	31	50

Persons employed

The daily average number of persons employed in all the factories in India, whether worked by mechanical or electrical power or not so worked, and whether owned by Government or local bodies or by companies or individuals, was 1,367,136 in 1919 as against 1,292,670 in 1918, and 1,238,167 in 1917. Of these the number employed in factories under the Act was 1,171,513 as against 1,120,072 in 1918, and 1,076,201 in 1917. Of this total 446,541 (being 38 per cent) were employed in factories in Bengal, and 318,236 (about 27 per cent) in Bombay, these two provinces employing nearly two-thirds of the factory labour of India.

		1918	1919
Adults	Males	804,619	927,599
	Females	161,343	177,376
Children	Males	53,184	54,946
	Females	10,926	11,592

Accidents

There were 5,423 accidents, causing death or bodily injury to operatives, reported in 1919, under the Indian Factories Act as against 5,063 in 1918. Of these 145 were attended with fatal results, 49 occurring in Bengal and 21 in Bombay. Bengal also had the largest number of serious accidents, namely, 432, against 115 in Burma, 101 in Bihar and Orissa, 99 in Bombay, 89 in the United Provinces, and 69 in the Central Provinces and Berar. The largest number of minor accidents—896 out of a total of 4,321—occurred in Bombay, Bihar and Orissa coming next with 796, closely followed by the United Provinces (743) and Bengal (657).

Convictions

There were 132 convictions in 1919 in respect of offences against the Factories Act. Of these 53 were for the employment of persons in contravention of the Act, and 30 for neglect to fence machinery, etc.

BREWERIES

[For Table, see page 52]

According to the statistics of 1919, there are 16 breweries in operation in British India. Nine of the breweries are located at stations in the Himalayas from Murree to Darjeeling. The largest brewery is the one at Kasauli—the Bangalore, Murree (Ghoragalli), Solon, Quetta, Rawalpindi, Yellanhalli, Ootacamund, Naduvakarai, Mandalay, and Aravanghat breweries standing next in importance in the order as shown here.

The marginal table compares the production of Indian breweries with the imports of foreign beer during the last five years. In 1902 the production was 6,475,000 gallons; thereafter it tended to decline, while imports of foreign beer increased proportionately. In the year 1907, the process was reversed, internal production having advanced slightly and imports decreased. Since then until 1916 there was a steady decrease in the production, while the imports, after declining up to 1911 (with a small set-back in 1910), recovered appreciably in 1912, and rose higher in 1913. From 1914

	Production gallons.	Imports gallons.
1915	2,533,000	2,818,000
1916	4,103,000	2,889,000
1917	6,217,000	1,842,000
1918	8,214,000	2,003,030
1919	6,698,000	1,910,000

the imports decreased, owing to the difficulty in obtaining freight, the absence of a large portion of the British Regular Army from India, and the shortage of light German beer. In 1916, the production showed an appreciable increase, while the imports were practically the same as in 1915. The production continued to rise and reached the highest level, 8,214,000 gallons, in the year 1918; but there was a considerable decrease in the year under report. Imports, on the other hand, after touching the low level of 1.842,000 gallons in 1917, recovered slightly in 1918, but fell again in 1919.

COTTON MILLS

[FOR TABLES, SEE PAGES 53 TO 75]

The Indian cotton industry dates as far back as 1851, when the first mill was started, but complete statistics were not reported until 1879-80. The following statement shows quinquennial averages from that year to 1918-19 and annual figures for each of the years, 1916-17 to 1919-20. The figures in brackets represent the variations for each period, taking the average of the quinquennium from 1879-80 to 1883-84 as 100: (sterling capital has been converted into rupees at the rate of R15 to £1)

	Number of mills at work	Authorised Capital (in lakhs of R) as far as reported	Number (in thousands) of		
			Persons employed	Looms	Spindles
Average 1879-80 to 1883-84	63 (100)	657·6 (100)	51·0 (100)	14·5 (100)	1,610·6 (100)
„ 1884-85 to 1888-89	93 (148)	887·9 (135)	75·7 (148)	18·2 (126)	2,296·8 (143)
„ 1889-90 to 1893-94	127 (202)	1,161·7 (177)	116·1 (228)	25·3 (175)	3,263·8 (203)
„ 1894-95 to 1898-99	156 (248)	1,419·5 (216)	150·0 (294)	36·6 (253)	4,046·1 (251)
„ 1899-1900 to 1903-04	195 (310)	1,687·9 (257)	171·6 (336)	42·0 (290)	5,000·9 (310)
„ 1904-05 to 1908-09	218 (346)	1,878·7 (286)	216·4 (424)	60·0 (414)	5,549·1 (345)
„ 1909-10 to 1913-14	257 (408)	2,243·3 (341)	243·8 (474)	88·1 (608)	6,406·4 (398)
„ 1914-15 to 1918-19	265 (421)	2,417·2 (368)	277·6 (544)	110·7 (763)	6,629·8 (412)
Year 1916-17	267 (424)	2,305·8 (351)	277·3 (544)	110·8 (764)	6,670·2 (414)
„ 1917-18	269 (427)	2,466·3 (375)	284·0 (557)	114·8 (792)	6,614·3 (411)
„ 1918-19	264 (419)	2,817·6 (428)	290·3 (569)	116·1 (801)	6,590·9 (409)
„ 1919-20	263 (417)	3,883·6 (591)	305·5 (599)	117·6 (811)	6,714·3 (417)

Number of mills

At the end of 1919-20 there were in India 263 cotton mills, containing 117,558 looms and 6,714,265 spindles. They employed a daily average number of 305,511 persons: 222,884 men, 54,647 women, and 27,980 children.

Capital

The authorised rupee capital of the mills, as far as this information has been furnished, is R38,35,79,042 and the sterling capital £318,400; of the rupee capital, R27,07,83,642 is paid-up and of the sterling capital, £258,888 is paid-up. There are, further, rupee debentures to the value of R3,42,29,472 and sterling debentures amounting to £99,000. The aggregate of the authorised capital and debentures is thus arrived at R42 crores, and of this R27½ crores or £18¼ millions is paid-up.

The mills are located as follows:—

	Number	Authorised capital (R)
Bombay, Island	33	22,18,59,500
„ Ahmedabad	64	3,03,14,750
„ elsewhere	28	3,01,75,000
Bengal, almost all near Calcutta	12	1,99,00,000
Madras, city	4	42,25,500
„ elsewhere	11	92,06,877
United Provinces: Cawnpore	6	(b)1,18,00,000
„ „ Agra	4	(a)5,00,000

French India: Pondicherry	4	£318,400

The Bombay Presidency possesses 67 per cent of the mills, nearly 71 per cent of the spindles, and 80 per cent of the looms.

Production of yarn

The total production of yarn in the mills in British India, as far as reported, and the figures of exports, are stated below (lbs):

	Nos. 1 to 25	Above No. 25	Wastes	Total Production	Total Exports
Average 1896-97 to 1900-01	423,906,898	20,082,852	..	443,989,750	198,002,463
„ 1901-02 to 1905-06	537,379,018	39,935,969	..	577,314,987	270,818,888
„ 1906-07 to 1910-11	555,373,854	53,392,346	160,175	608,926,375	228,318,890
„ 1911-12 to 1915-16	576,907,945	59,245,835	633,907	636,877,687	178,684,648
Year 1916-17	574,746,279	69,354,685	345,937	644,446,901	177,468,937
„ 1917-18	548,699,280	77,877,951	223,279	626,800,510	130,223,130
„ 1918-19	507,899,448	72,430,108	231,153	580,560,714	72,480,373
„ 1919-20	529,668,196	67,43 ,989	256,105	597,355,290	160,315,652

(a) Represent capital of one mill
(b) „ „ four mills
(c) Private concern. Capital not stated

In the last quinquennium the average annual outturn of yarn was 637 million lbs. In 1919-20 the output was 597 million lbs, as against 581 million lbs in 1918-19.

The spinning of yarn is in a large degree centred in Bombay, the mills of that province producing nearly 73·6 per cent of the quantity produced in British India. The United Provinces and Madras produced 5·9 per cent and 7·4 per cent, respectively; while Bengal and the Central Provinces produced about 5·9 per cent and 5·7 per cent, respectively. Elsewhere the production is as yet very limited.

The production of yarn of counts higher than No. 25 decreased from 72 million lbs. in 1918-19 to 67 million lbs in 1919-20. In the Central Provinces, Bengal, the United Provinces, and the Punjab, the mills spin hardly any yarn above No. 25, yarn of that count and lower numbers representing 96, 93, 99, and 96 per cent, respectively, of the whole production. In Bombay, however, the spinning of the higher counts (above 25) is 12 per cent of the whole, and in Madras it is about 19 per cent.

It is interesting to note that the imports of yarn in 1919-20 from the United Kingdom and other places were about 3 per cent of the total production in British India. The figures are as follows (*lbs*):

	Nos. 1 to 25	Above No. 25	Unspecified descriptions	Total Imports
Average 1896-97 to 1900-01 . .	5,654,194	38,315,540	2,317,358	46,287,092
„ 1901-02 to 1905-06 . .	3,571,768	29,095,637	2,602,569	35,269,974
„ 1906-07 to 1910-11 . .	2,608,278	31,574,481	3,680,680	37,863,439
„ 1911-12 to 1915-16 . .	1,999,767	35,961,784	5,929,759	43,891,310
Year 1916-17	1,892,043	22,285,765	5,351,761	29,529,569
„ 1917-18	732,064	14,236,889	4,431,486	19,400,439
„ 1918-19	8,450,337	25,582,777	4,062,299	38,095,413
„ 1919-20	797,835	12,399,041	1,900,328	15,097,204

Production of woven goods

The production of woven goods in the mills in British India, as far as reported, has been as follows (*lbs*):

	Grey and bleached piece-goods	Other kinds	Total
Average 1896-97 to 1900-01 . . .	80,557,484	11,295,465	91,852,949
„ 1901-02 to 1905-06 . . .	109,884,271	25,009,554	134,893,825
„ 1906-07 to 1910-11 . . .	154,123,927	40,007,307	194,131,234
„ 1911-12 to 1915-16 . . .	205,088,072	67,957,638	273,045,710
Year 1916-17	255,850,480	98,957,420	354,807,900
„ 1917-18	249,610,594	109,567,700	359,178,294
„ 1918-19	236,937,346	88,848,367	325,785,713
„ 1919-20	253,141,351	102,539,767	355,681,118

In 1919-20 the total production was 356 million lbs, or an increase of 30 million lbs or about 9 per cent over the preceding year.

Weaving is concentrated in the Bombay mills to an even greater degree than spinning, the mills of that province producing about 86 per cent of the whole quantity woven in British India. The United Provinces produce about 3 per cent, and the Central Provinces and Madras about 5 and 4 per cent, respectively. The goods woven are mainly grey and bleached piece-goods, these representing nearly 71 per cent of the whole production.

The most important kinds of grey and bleached piece-goods woven in the mills in British India are specified below (*in lbs*):

	Average 1901-02 to 1905-06	Average 1906-07 to 1910-11	Average 1911-12 to 1915-16	1916-17	1917-18	1918-19	1919-20
Shirtings and longcloth .	38,611,145	50,679,465	72,662,981	90,597,089	93,170,287	81,482,306	95,388,537
Dhutis . . .	25,448,365	43,950,296	57,383,242	63,275,286	66,318,200	73,957,936	69,955,672
T-cloths, domestics, and sheetings . . .	19,376,545	24,817,341	27,837,660	41,943,474	26,870,665	19,941,038	26,181,327
Chadars . . .	13,628,457	15,678,079	22,975,225	21,181,318	16,985,563	12,276,896	21,787,527

The proportion of woven goods other than grey and bleached piece-goods was highest in Madras, where in 1919-20 it was about 65 per cent. In the Central Provinces the proportion was 25 per cent and in Bombay 29 per cent.

Figures of imports are not readily comparable with those of production, because the former is recorded in yards and the latter up to the year 1906 in lbs, with the exception of grey and bleached piece-goods : the figures of grey and bleached piece-goods are as follows (*in millions of yards*) : Comparison of piece-goods imported and produced

	Imported	Produced	Percentage of production to importation
Average 1896-97 to 1900-01	1654·21	319·55	19·3
„ 1901-02 to 1905-06	1741·6	457·38	26·3
„ 1906-07 to 1910-11	1749·45	676·19	39·2
„ 1911-12 to 1915-16	2032·80	871·03	42·8
Year 1916-17	1436·82	1063·98	74·0
„ 1917-18	1127·83	1067·31	94·6
„ 1918-19	870·05	999·33	114·9
„ 1919-20	855·39	1076·34	125·8

The yardage of coloured piece-goods from April 1906 was as under (*in millions of yards*) :

	Imported	Produced	Percentage of production to importation
Average 1906-07 to 1910-11	519·20	152·71	29·4
„ 1911-12 to 1915-16 . . .	591·38	277·29	46·9
Year 1916-17	454·96	426·53	93·8
„ 1917-18	395·59	462·24	116·8
„ 1918-19	227·32	364·42	160·3
„ 1919-20	208·30	458·11	219·9

To the figures given above for mills in British India, may be added the production in Berar prior to the 1st October, 1903, and in the Indian States, which is stated below (in lbs). The States are Mysore, Indore, Baroda, Nandgaon, Bhavnagar, Hyderabad, Wadhwan, Travancore, Cochin, Kishengarh, Gwalior and Kolhapur. The production of one mill in Pondicherry has been reported from April, 1909 : Production in Indian States

	Yarn				Woven goods		
	Nos. 1 to 25	Above No. 25	Wastes	Total	Grey and Bleached	Other kinds	Total
Average 1896-97 to 1900-01 .	8,700,997	321,672	..	9,022,669	2,576,912	114,698	2,691,610

JUTE MILLS

[For Tables, see pages 76 to 78]

The record of the jute industry, as disclosed by these tables, may well be said to be one of uninterrupted progress. The following statement shows quinquennial averages from the earliest year for which complete information is available with actuals for 1917-18, 1918-19, and 1919-20, and the figures in brackets represent the variations in each period, taking the average of the quinquennium from 1879-80 to 1883-84 as 100. It will be seen that the number of looms and spindles in operation and that of persons employed have increased to a very much larger extent than either the number of mills at work or the amount of capital employed. Progress of Jute mills

	Number of mills at work	Authorised capital (in lakhs of ₹)	Number (in thousands) of Persons employed	Looms	Spindles
Average 1879-80 to 1883-84	21 (100)	270·7 (100)	38·8 (100)	5·5 (100)	88 (100)
„ 1884-85 to 1888-89	24 (114)	341·6 (126)	52·7 (136)	7 (127)	138·4 (157)
„ 1889-90 to 1893-94	26 (124)	402·6 (149)	64·3 (166)	8·3 (151)	172·6 (196)

Year 1917-18 . . .	76 (362)	1,428·5 (528)	266 (686)	40·6 (738)	834 (948)
„ 1918-19 . .	76 (362)	1,477·2 (546)	275·5 (710)	40·0 (727)	839·9 (954)
„ 1919-20 . . .	76 (362)	1,563·5 (577)	280·4 (723)	41·0 (745)	856·3 (973)

Production Exports of manufactures

The production of the mills has increased to a still greater extent. The following figures show the exports of gunny bags and gunny cloth and the declared values of all jute manufactures for the same periods. The value of jute manufactures, principally gunny bags and gunny cloth, exported by sea in 1919-20 was over forty times as great as the average value of the export in the period 1879-80 to 1883-84.

	Exports of Jute manufactures		
	Gunny bags in millions of number	Gunny cloth in millions of yards	Value in lakhs of ₹
Average 1879-80 to 1883-84	54·9 (100)	4·4 (100)	124·9 (100)
„ 1884-85 to 1888-89	77 (140)	15·4 (350)	162·9 (130)
„ 1889-90 to 1893-94	111·5 (203)	41 (932)	289·3 (232)
„ 1894-95 to 1898-99	171·2 (312)	182 (4,136)	518 (415)
„ 1899-1900 to 1903-04	206·5 (376)	427·2 (9,709)	826·5 (662)
„ 1904-05 to 1908-09	257· (469)	698 (15,864)	1,442·7 (1,154)
„ 1909-10 to 1913-14	339·1 (618)	970 (22,045)	2,024·8 (1,621)
„ 1914-15 to 1918-19	667·6 (1,216)	1,156 (26,273)	4,019·3 (3,218)
Year 1917-18	758·4 (1 381)	1,196·8 (27,200)	4,284·3 (3 430)
„ 1918-19	583·1 (1,062)	1,103·2 (25,073)	5,265·2 (4,215)
„ 1919 20	342·7 (624)	1,275·1 (28,980)	5,001·5 (4,004)

Exports of raw jute

Until the outbreak of war the exports by sea of raw jute were marked by increases from year to year, although the increase was very much less than that in the case of manufactures. During the war years exports declined very considerably. In the year 1919-20 there was again an increase, as compared with the average of the war quinquennium (1914-15 to 1918-19).

	Jute, raw, tons.
Average 1879-80 to 1883-84	375,000 (100)
„ 1884-85 to 1888-89	445,000 (119)
„ 1889-90 to 1893-94	500,000 (133)
„ 1894-95 to 1898-99	615,000 (164)
„ 1899-1900 to 1903-04	635,000 (169)
„ 1904-05 to 1908-09	755,000 (201)
„ 1909-10 to 1913-14	765,000 (204)
„ 1914-15 to 1918-19	464,000 (124)
Year 1917-18	278,000 (74)
„ 1918-19	398,000 (106)
1919-20	592,000 (158)

Prices

The price of ordinary raw jute (X group) was ₹76-12-0 per bale in 1913-14; in 1917-18 it dropped to ₹38-8-0, but rose again in 1919-20 up to ₹77-8-0. The increase in the price of gunny cloth (hessian 10½ oz 40″) was from ₹17 per 100 yards in 1913-14 to ₹28 in 1919-20.

PAPER MILLS

[For Tables, see pages 79 and 80]

The number of paper mills in India at work in 1919 was nine, three in each of the Bombay and Bengal Presidencies and one each in the United Provinces, the Travancore State, and the Gwalior State. The estimated authorised capital of these mills, as far as information could be had, was about ₹49½ lakhs. The value of the output reported fell from ₹2,11 lakhs in 1918 to ₹2,09 lakhs in 1919.

In 1915 the value of the paper manufactured in India and that of imported paper and paste board (both on private and Government account) were about ₹90 lakhs and ₹1,39 lakhs, respectively. In 1919 the corresponding figures were ₹2,09 lakhs and ₹2,45 lakhs, the value of the internal production having increased in the meantime by 132 per cent, and that of the imports by 76 per cent. The values of country-made and imported paper during the last five years are given in the margin. The decrease in 1919, both in internal production and in imports, is noticeable

	Produced in Indian mills ₹	Imported ₹
1915	89,62,000	1,38,61,000
1916	1,24,85,000	2,34,19,000
1917	1,87,86,000	2,12,77,000
1918	2,11,18,000	2,75,73,000
1919	2,09,43,000	2,44,52,000

WOOLLEN MILLS

[For Tables, see pages 81 and 82]

Of the seven woollen mills in India, one is in the Mysore State, and of the remaining six, four represent a paid-up capital of ₹1,41,50,000, while the capital of the other two, which are private mills at Calcutta and at Bombay, is not stated. Two of the mills, that is, the one at Cawnpore in the United Provinces and the other at Dhariwal in the Punjab, have between them a paid-up capital of ₹1,35 lakhs or 84 per cent of the whole, and produce 64 per cent of the total outturn of Indian mills. They weave cloth for the use of the army and the police, and articles of generally superior quality.

There was an increase during the year under review in the number of looms and of spindles. In 1906 and 1907, there was a considerable shrinkage in production; since then there has been a steady increase, the

statistics for 1916 surpassing all previous records. In 1919, there was a decrease both in quantity and value of the production. Prior to 1915 the value of the woollen goods imported into India was much more than that of the production in Indian mills. In 1915 the order was reversed and the production far exceeded the imports. In 1916 there was a sharp recovery but the value of the imports was still less than that of the production. In 1917 imports regained their former position and retained it in the following year, but in 1919 they again fell below production. Piece-goods mostly from the United Kingdom and carpets and rugs from the United Kingdom and Persia make up the bulk of the imports. The values of country-made and imported woollen goods are shown in the marginal table. There are in various places factories for the weaving of carpets and rugs and of *pattu* and *páshmina*, but although these industries are in the aggregate extensive, they are individually small, and weaving is done by hand-looms.

	Produced in Indian mills	Imported
	₹	₹
1915	1,23,01,000	86,05,000
1916	1,66,59,000	1,64,04,000
1917	2,01,10,000	2,28,00,000
1918	2,00,15,000	2,05,96,000
1919	1,64,99,000	1,47,46,000

The exports of woollen goods from India consist almost entirely of carpets and rugs. The value of Indian carpets and rugs exported during the last five calendar years is stated in the margin. The exports gradually declined up to 1914; the decline was arrested in 1915, and there was a marked increase in 1916. Since then the exports have declined again, but in 1919 they rose to about ₹54 lakhs.

	₹
1915	19,57,000
1916	26,25,000
1917	19,10,000
1918	11,43,000
1919	53,58,000

MINERAL PRODUCTION

[FOR TABLES, SEE PAGES 83 TO 89]

The minerals for which figures are recorded in these tables are those comprised in Group I of the minerals dealt with in the Records of the Geological Survey of India, that is to say, those minerals for which approximately accurate and full returns are obtainable.

Salt.—Statistics are supplied annually by all Local Governments and Administrations. Full details of the production and consumption of salt and the administration of salt revenue are contained in Volume II (Financial) of the Statistics of British India.

Coal.—Figures are compiled chiefly from the statutory returns of the output furnished to the Chief Inspector of Mines in India by the Managing Agents of mines regulated by the Indian Mines Act, VIII of 1901. Figures for mines situated in Indian States and for mines not coming within the operation of the Indian Mines Act are furnished by the Director, Geological Survey of India. Details regarding the coal mining industry in India are given separately in the next section relating to Coal Mines.

Gold.—Figures are supplied by the Director, Geological Survey of India. Ninety-six per cent of the total output of gold in 1919 was derived from the Kolar gold field in Mysore, the quantity won being 485,248 ounces, valued at ₹2,13,62,846. The production of this field reached its highest point in 1905 when 616,758 ounces were raised. The Anantapur mines in Madras come next, but at a respectable distance, to the Kolar gold field. The output in 1919 was 11,018 ounces, valued at ₹5,62,918, or 2·2 per cent of the total output of Indian gold. These mines gave their first output of gold during the year 1910, the amount being 2,332 ounces, valued at ₹1,51,800. The Nizam's mines at Hutti in Hyderabad follows the Anantapur mines, the yield in 1919 being 10,648 ounces, valued at ₹6,10,195. Other gold mines of minor importance exist in Bihar and Orissa and Burma. The Kyaukpazat mine in Upper Burma was worked until 1903, when the paychute was lost and the mine closed down. In 1902 dredging operations were started on the Irrawaddy river near Myitkyina, and 216 ounces of gold were obtained in 1904; the amount steadily increased from year to year and reached 8,445 ounces in 1909, but fell to 39 ounces in 1919. In Bihar and Orissa 450 ounces of gold were for the first time extracted in 1915 from the Singhbhum mines in Chota Nagpur. The output fell from 2,085 ounces in 1918 to 173 ounces in 1919. The small quantity of gold produced in the Punjab and the United Provinces is obtained by washing. Gold washing is carried on in a great many districts in India, but there is no complete record of the amount obtained in this way. The average earnings of the workers are very small, and the gold thus won is used locally for making jewellery.

Petroleum.—Figures of production are supplied by the Director, Geological Survey of India. Petroleum is found in India in two distinct areas—one on the east, which includes Assam, Burma, and the islands off the Arakan coast (this belt extends to the productive oil fields of Sumatra, Java, and Borneo) and the other area is on the west which includes the Punjab and Baluchistan, the same belt of oil-bearing rocks being continued beyond the borders of British India to Persia. Of these two, the eastern area is by far the most important, and the most successful oil fields are found in the Irrawaddy valley. The Yenangyaung is the oldest and most developed of these fields. Native wells have been at work here for over a century, and in 1886, prior to the annexation of Upper Burma, the output is estimated to have averaged over 2 million gallons a year. Drilling was begun in 1887. The output of the field rose to 10 million gallons in 1894, and to 40 million gallons in 1902. Since then its progress has been more rapid, and the output reached 190 million gallons in 1919. The Yenangyat field yielded a very small supply of petroleum before 1891, in which year drilling was started by the Burma Oil Company. For some years its progress was slow, but in 1903 the production reached 22 million gallons. Since then the output has decreased, and it was over 4 million gallons in 1919. Singu now holds the second place among the oil fields of India. Petroleum was struck at the end of 1901, and in 1903, 5 million gallons were obtained. In 1907 and 1908 the production of this field was about 43 million gallons, and, after a fall to 31½ million gallons in 1910, it rose to about 94 million gallons in 1919. Several of the islands off the Arakan coast are known to contain oil deposits, but their value is

uncertain. About 11,000 gallons were obtained from the Eastern Barongo Island near Akyab, and about 44,000 gallons from Ramri Island in the Kyaukpyu district during 1919. Oil was struck at Minbu in 1910, the production for that year being 18,320 gallons, which increased to about 4½ million gallons in 1919. For the first time in the year 1918 the Chindwin field showed an output, amounting to nearly half a million gallons, which rose to over 1 million gallons in 1919. The existence of oil in Assam has been known for many years, and an oil spring was struck at Digboi near Makum in 1867. Nothing more, however, was done until 1883, and from that year to 1902 its progress was slow. Since that year the annual production has been between 2½ million and 6½ million gallons. A new field at Badarpur in Assam was opened up in 1917, and it produced nearly 3 million gallons in that year and 6½ million gallons in 1919.

On the west, oil springs have been known for many years to exist in the Rawalpindi and other districts in the Punjab, but the output was insignificant until the discovery of the Khaur field, which produced ¼ million gallons in 1915. The total output of the province in 1915 amounted to 251,500 gallons but fell to 183,800 gallons in 1916. In 1918 the output rose to 750,800 gallons but it fell to 114,000 gallons in 1919. In Baluchistan, geological conditions are adverse, and although some small oil springs have been discovered, attempts to develop them have not hitherto been successful.

The consumption of kerosene in India (excluding Burma) is rapidly increasing and has risen from about 79 million gallons in 1900-01 to 200 million gallons in 1919-20. The enormous increase in the output of the Burma oil fields has reversed the position formerly held by foreign and Indian oil in the market.

The following statement shows the quantity of dangerous and non-dangerous petroleum produced in Burma and Assam during the last ten years :—

Year	Burma		Assam	
	Dangerous	Non-dangerous	Dangerous	Non-dangerous
	1,000 gals.	1,000 gals.	1,000 gals.	1,000 gals.
1910	18,246	143,387	57	2,034
1911	21,228	148,874	81	2,142
1912	23,109	161,250	121	1,906
1913	32,375	184,617	180	2,539
1914	32,282	178,314	218	2,976
1915	26,129	171,004	240	2,631
1916	33,159	176,109	367	3,056
1917	32,436	175,708	462	3,713
1918	33,086	176,621	449	8,980
1919	39,529	170,144	415	9,610

Chromite.—The exploitation of the chromite deposits in Baluchistan, which were discovered by the Geological Survey of India in 1901, was begun in 1903. In 1906 the output amounted to 4,375 tons, which rose in 1919 to 13,223 tons, valued at R4,29,757. At present the ore is raised entirely for export The opening-up of the Mysore chromite deposit commenced in 1907 with an initial output of 11,029 tons, valued at R2,20,580. There was no production during the years 1910 to 1912. In 1913 the production was 1,414 tons, rising in 1919 to 22,372 tons, valued at R4,44,766. The year 1913 showed for the first time in the Singhbhum district (Bihar and Orissa) an output of 848 tons of chromite, valued at R6,784; the output rose in 1917 to 3,266 tons, valued at R46,657, but fell to 844 tons, valued at R12,721, in 1919.

Copper-ore.—The output of copper-ore in Singhbhum increased from 2,173 tons, valued at R48,885, in 1916, to 32,756 tons, valued at R5,24,096, in 1919. Smelting operations began at the Rakha mines during the year 1918 and resulted in the production of 13 tons of blister copper. 980 tons of refined copper were produced in 1919.

Diamonds.—Diamonds are produced in the mines of the Vindhyan belt which stretches through the Central Indian States of Panna, Charkhari, Ajaigarh, and Bijawar. The production in this field was 44 carats, valued at R7,133, in 1911. In 1913 it showed an increase to 79 carats, valued at R26,536, and further rose in 1919 to 312 carats, valued at R2 08,253. In 1909, 111 carats were obtained from Banganapalli, Madras, but the production in 1911 was insignificant, being 9 carats only. In 1913, 37 carats were obtained from the Karnul district, but in the following five years no output was recorded in the Madras Presidency.

Graphite.—Graphite occurs in the Travancore State under geological conditions similar to those of the richer deposits worked in Ceylon. The production in 1911 was 3,993 tons, the highest on record. Owing to the difficulties of working, the mine has been shut down since 1912. Some 54 tons of the mineral were obtained from the Vizagapatam mine in Madras in 1911, but no output has been recorded since 1912. Since the closing down of the Travancore mines attention has been paid to the graphite deposits in Bihar and Orissa and in Rajputana. At present the industry is only in its infancy, the total output being 42 tons in 1917, one ton in 1918, and 5 tons in 1919 in Merwara (Rajputana), and about 61 tons, 80 tons and 100 tons in the respective years in Kalahandi (Orissa). About 22 tons were also produced in 1919 in the Patna State (Orissa).

Iron-ore.—The production of the Tata Iron and Steel Co.'s mines in Maurbhanj (Orissa) appeared in the statistics for the first time in 1911, the amount being 300,000 tons, valued at R3,00,000. The output rose in 1912 to 471,232 tons, valued at R4,71,232, but fell to 423,598 tons, valued at R2,88,345, in 1919. The Bengal Iron Works obtain their ores from Bengal and Chota Nagpur, the major portion of the output now coming from Singhbhum in Chota Nagpur. Elsewhere in India, namely, in the Central Provinces, the United Provinces, Madras, Central India, Hyderabad, Mysore, Rajputana, Burma, and the Punjab, operations are carried on, on a very small scale, for use in the small native furnaces. The value reported for the ore raised in Orissa and Chota Nagpur works out to an average of As. 13 per ton.

Jadestone.—The substance which passes as jadestone is mainly the mineral jadeite, which occurs in an altered igneous dyke in serpentine in the Myitkyina district of Upper Burma and also in the form of boulders in a tertiary conglomerate and in alluvium. It is worked in an unadministered tract, and there are no reliable figures of production. The figures given in the tables are those of the exports by sea from Rangoon, together with the exports overland to China.

Lead and Silver.—The smelting of lead slags and lead ore at Bawdwin (Northern Shan States) by the Burma Mines, Ld., resulted in a production in 1910 of 12,896 tons of lead and 49,680 ounces of silver worth R24,23,137 and R74,520, respectively. The output during 1919 amounted to 19,090 tons of lead and 2,164,854 ounces of silver, valued at R66,81,500 and R48,70,919, respectively. 753 ounces of silver were obtained in 1919 as a by-product in the extraction of gold at Anantapur in Madras by the Jibutil Gold Mines of Anantapur Ld.

Magnesite.—This mineral is worked in the Chalk Hills near Salem in the Madras Presidency. The output in 1919 was 13,012 tons, as against 5,773 tons in 1918. From 1913, this mineral has been worked also in Mysore, but there was no production in 1915, and since then the output has been low, the production in 1918 being only 80 tons. In 1919, however, the output rose to 4,114 tons.

Manganese-ore.—This industry commenced about twenty-eight years ago by quarrying the deposits of the Vizagapatam district, and from an output of 674 tons in 1892, the production rose rapidly to 92,008 tons in 1900, when the richer deposits in the Central Provinces were also attacked and are now yielding a larger quantity of ore than the Vizagapatam mines. The manganese-ore industry suffered from severe depression during the years 1914 and 1915, the output having fallen from 815,047 tons, valued at R1,81,65,515, in 1913, to 682,898 tons, valued at R1,31,58,965, in 1914 and 450,416 tons, valued at R1,39,43,187, in 1915. The output rose to 645,204 tons, valued at R2,23,05,393, in 1916. In 1919 the output was 537,995 tons, valued at R1,54,63,300.

Mica.—The chief centres of production are the Nellore district in Madras, the Hazaribagh and Gaya districts of Bihar and Orissa, and certain States in Rajputana. Prospecting has been carried on in various districts of Madras, the Central Provinces, Upper Burma, and Assam, and in the Kishengarh State. The output of mica in 1919 was 45,784 cwts, as against 54,710 cwts in 1918.

Monazite.—This mineral has now taken an important place in the list of minerals of economic value produced in India. At present it is worked in Travancore by the London Cosmopolitan Mining Co. The output, which amounted in 1911 to 832 tons, valued at R3,60,660, rose in 1919 to 2,024 tons, valued at R6,07,120.

Platinum.—Four ounces of this mineral, valued at R287, were won in 1917, during the course of the gold dredging operations at Myitkyina in Burma; owing to cessation of the operations during 1918, Burma has ceased to produce platinum, and no quantity was recovered during the year 1919.

Rubies.—The figures in the tables represent the quantity and value of rubies raised by the Burma Ruby Mines, Ld., in the Ruby Mines district of Upper Burma. There are no statistics available of the quantity and value of rubies raised by Indian miners in the district. Rubies are also found in the Mandalay and Myitkyina districts, but the production is on a very small scale. The total quantity of the mineral reported to have been raised in 1919 amounts to 158,577 carats, valued at R10,80,870.

Saltpetre (Nitrate of Potash).—This article is largely produced for export. It is mainly produced in the United Provinces, the Punjab, and Bihar. The production of saltpetre was 360,561 cwts in 1919, as against 510,270 cwts in 1918.

Tin-ore.—Tin-washing is carried on in the Tenasserim Peninsula, and also in the Bawlake State of Karenni chiefly by Chinese immigrants, in an uncertain and unsystematic way. The production of tin-ore in 1911 was 1,943 cwts, and rose to 26,891 cwts in 1919. In addition, 2,742 cwts of block tin was produced in 1919, as against 2,014 cwts in 1918.

Wolfram (Tungsten-ore).—The great activity displayed in prospecting for wolfram in Tavoy and to a less extent in Mergui in Burma resulted in the output of 396 tons in 1910, and of 2,645 tons, valued at R44,51,592, in 1915. The quantity of the ore produced in India in 1919 was 3,577 tons, valued at R53,95,445.

Zinc-ore.—The ore is found in association with galena in the Bawdwin mines in Burma, large ore-bodies being composed of the latter mineral and zinc-blende. In 1914, 8,553 tons of zinc-ore, valued at R1,61,430, were produced, as against 3,871 tons, valued at R73,065, in 1913. In 1915 the output fell considerably to 87 tons, valued at R2,610, but rose to 3,198 tons, valued at R87,396, in 1916. No output has, however, been recorded since 1917.

COAL MINES

[FOR TABLES, SEE PAGES 90 TO 96]

Sources of Statistics

All returns of production in the case of mines under the Indian Mines Act, VIII of 1901, are sent direct by the Managing Agents of mines to the Chief Inspector of Mines, who forwards them to this Department. The

Director, Geological Survey of India, supplements them by the returns sent to him by Local Governments and Political Agents for non-Act and Indian States mines. Information regarding the imports and exports of coal has been taken from the Seaborne and Railborne Trade Accounts published by this Department. As regards consumption of coal, data have been specially obtained from the Railway Board, the Coal Transportation Officer, the Steamer Companies, the Port Trusts, and mills and factory owners. Additional information regarding foreign countries has been obtained from the British Board of Trade, British Consuls, and also from other official sources.

Production

The quantity of coal produced in each province in India from 1878 to 1919 is given in table No. 31. Although production and consumption have shown a steady increase, which has been specially noticeable since 1906, the development of the coal resources of the country is still incomplete.

The total production in 1919 amounted to 22,628,000 tons, or over 9 per cent more than that in the previous year. To this may be added some 453,000 tons estimated to have been taken out from the mines by miners for their own use. The total production in 1919 would thus come to some 23,081,000 tons, but for purposes of comparison the figure 22,628,000 tons should be adopted.

In 1919 the Jherria and Raniganj fields increased their out-put by 1,184,000 tons and 447,000 tons, respectively. A substantial increase was also marked in the coal-fields of Ramgarh-Bokaro (Hazaribagh) and Giridih. The output of the mines in the Central Provinces, Rajputana and Hyderabad and of the coal-field of Jainty (Santhal Parganas) also showed some increase. There was a decrease in the production of the mines in Baluchistan, Central India (Rewah), Daltonganj (Palamau), the Punjab, Assam, and Sambalpur.

Coal-fields

The coal-fields hat have been worked in recent years are classified below, with the quantity produced in 1919, according as they belong geologically to the Gondwana system of strata, chiefly composed of sandstones and shales deposited in fresh water and by rivers, or to Tertiary (or Cretaceous) beds :—

Gondwana Coal-Fields—	1919 tons	Per cent of total
Bengal and Bihar and Orissa—		
Daltonganj	63,200	·28
Giridih	950,000	4·20
Jherria	12,145,900	53·68
Jainty	154,900	·68
Ramgarh-Bokaro	722,700	3·19
Raniganj	6,815,100	30·12
Sambalpur	45,600	·20
Central India—		
Umaria (Rewah)	182,100	·80
Central Provinces—		
Mohpani	85,300	·38
Pench Valley	285,400	1·26
Ballarpur (Chanda)	126,400	·56
Hyderabad State—		
Singareni	662,200	2·93
Total	22,238,800	98·28

Tertiary Coal-Fields—	1919 tons	Per cent of total
Baluchistan—		
Khost (Sibi District)	23,700	·13
Quetta-Pishin District	5,300	
Loralai District	200	
Kalat State—Sor Range, Mach, etc.	5,200	·02
Assam—		
Makum, etc.	291,700	1·29
Burma—		
Northern Shan States	1,500	..
North-West Frontier Province—		
Hazara	20	..
Punjab (Salt Range)—		
Jhelum District	35,800	·21
Mianwali ,,	5,800	
Shahpur ,,	5,200	
Rajputana—		
Bikaner	14,800	·07
Total	389,200	1·72

It will be seen from the foregoing table that about 98·3 per cent of the coal supplies of India is obtained from the Gondwana coal-fields and 1·7 per cent from Tertiary beds.

The Raniganj and the Jherria fields are in the Damodar Valley and produce about 84 per cent of the total output of Indian coal. The Raniganj field (where the first Indian coal mine was opened in 1820) held the first place as regards production up to 1905, but since then has stood second, its yield in 1919 being 6,815,100 tons or 30·1 per cent of the year's total production. It lies chiefly within the district of Burdwan (Bengal) but stretches also across the boundaries of the district into Bankura and Birbhum (Bengal), Manbhum, and the Santhal Parganas (Bihar and Orissa). The Jherria field in Bihar and Orissa, which was opened in 1893, went ahead of Raniganj in 1906, and it has maintained the lead since that date, the output in 1919 being 12,145,900 tons (that is, 54 per cent of the total production). Of the remaining fields in Bihar and Orissa, the Giridih field, a small isolated patch to the north of the Damodar Valley, produced, in 1919, 950,000 tons or 4 per cent of the total. The Daltonganj field, further west in the Palamau district, was opened in 1901 ; it yielded 63,200 tons in 1919. The Jainty field, near Giridih, which was opened in 1914, produced 154,900 tons in 1919. In the Ramgarh-Bokaro field, lying immediately to the west of Jherria in the Damodar Valley exploration was begun in 1908, and its yield in 1919 was 722,700 tons. The Sambalpur field was opened for the first time in 1909, and its production amounted to 45,600 tons in 1919. These seven coal-fields accounted for 92 per cent of the coal raised in India in 1919.

Outside Bengal and Bihar and Orissa, the most important mine is at Singareni near Yellunda in the Hyderabad State. Work was begun at Singareni in 1887, and progress has been more rapid than in any other place outside Bengal and Bihar and Orissa, the average annual production during the last ten years being some 581,000 tons. Its output in 1919 was 662,200 tons. The Umaria mine in the Rewah State in Central India was started in 1884. Its progress was steady up to the year 1903, when the production was 193,300 tons ; thereafter there was some retrogression until 1916 when the maximum output of 200,300 tons was reached. In 1919, the output was 182,100 tons. In the Central Provinces, the Ballarpur mine, lying in the Wardha valley in the chanda district, was opened in 1904 and the work of extracting coal began seriously in 1908. The output of this mine in 1919 was 88,400 tons. The Mohpani and the Pench Valley fields lie, respectively at the northern and southern fringes of the Satpura Hills. The former is situated in the Narsinghpur district in the south of the Nerbudda alluvial valley and has been worked by the Great Indian Peninsula Railway Company since 1904 ; its output was, in 1919, 85,300 tons. The Pench Valley field in the Chhindwara district was opened in 1905, and its yield rose from 1,100 tons in 1905 to 285,400 tons in 1919.

Next with reference to Tertiary or Cretaceous coal-beds, the most important are those in north-east Assam, where the Makum coal-fields have been worked since 1882, and the coal obtained has a remarkably low percentage of ash and a high calorific value. The output was 291,700 tons in 1919. Next in importance come the Salt Range mines of the Punjab and the Khost mines on the Sind-Pishin Railway in Baluchistan. Both of these have been worked for the past thirty-three years, but their production in 1919 was only 46,900 tons and 23,700 tons, respectively. The coal produced at Palana in the Bikaner State in 1919 was 14,800 tons, as compared with 11,300 tons in the previous year.

Value of coal at the pit's mouth

The value of the coal produced in India is reported annually by mine-owners. It represents the actual or estimated wholesale price of coal at the pit's mouth. The average value of all the coal produced in each province in India in each of the last fifteen years is given in table No. 32. In 1919 the average value was R4-8 per ton. The lowest value, namely, R2-8 per ton, was in 1905 and the highest (R4-8) was reached in the year under review when demand kept ahead of supply. The marginal table compares the average value at pit's mouth of Indian coal with the declared export value per ton in each of the last five years. The declared export value is about 2½ times the value at the pit's mouth. The total estimated value of the output in 1919 was R10,12 lakhs, as against R9,03 lakhs in 1918.

Average Value of Coal

	Declared export value per ton	Value at the pit's mouth per ton
	R a.	R a.
1915	9 3	3 5
1916	9 2	3 6
1917	9 5	3 11
1918	10 9	4 6
1919	11 14	4 8

Prices

The comparative average prices per ton of Bengal coal (Dcharghur) at Calcutta and of Indian and Welsh coal at Bombay and Karachi from 1905 are shown in table No. 33. In 1920 prices of Indian coal rose at all the ports, especially at Bombay.

Freights

In order to get an idea of the comparative prices of Bengal coal in the principal centres of industry in India the freight has to be added to the f.o.r. prices. The marginal table shows the freight (including 2 annas terminal charge) on the E. I. Railway per ton of coal by rail for full wagon loads at owners' risk (owners to load and unload) from the Raniganj and Jherria fields in 1919. It is interesting to note that the transport of coal forms an important item in the earnings of the Railway Companies, especially the East Indian and the Bengal-Nagpur systems, which serve the coal-fields of Bengal and Bihar and Orissa.

	From Raniganj	From Jherria
	R a. p.	R a. p.
To Calcutta	2 6 0	3 4 0
„ Cawnpore	6 6 0	6 1 0
„ Jubbulpore	7 1 0	6 13 0

Labour

Table No. 34 shows the total number of men, women, and children employed in the coal mines in India during each of the last fifteen years. This number represents the "average daily attendance" throughout the year, and is obtained by dividing the total number of attendances by the number of working days in each year. Coal-mining employs more labour than any other *mining* industry. In 1919, 203,752 persons were employed as against 191,325 in 1918, or an increase of 12,427 persons or 6·5 per cent. Details for the provinces for 1919 are given below :—

Province	Men	Women	Children	Total	Per cent of total	Output per person employed
						Tons
Bihar and Orissa	76,486	51,255	2,186	129,927	63·77	116·4
Bengal	30,067	18,014	561	48,642	23·87	118·8
Hyderabad	9,296	2,678	..	11,974	5·88	55·3
Central Provinces	4,533	1,646	127	6,306	3·10	78·8

Punjab	1,075	26	90	1,191	·58	39·4
Baluchistan (including Kalat State)	984	8	14	1,006	·50	34·1
Rajputana (Bikaner)	82	15	11	108	·05	136·7
North-West Frontier Province	5	..	..	5	..	4·0
Burma (Northern Shan States)	70	..	..	70	·03	21·4
TOTAL	126,276	74,410	3,066	203,752	100	111·1

(a) R7-15 with effect from 1st May 1919.

The labour employed in the coal-fields of Bihar and Orissa and Bengal showed an increase of 11,078 and 2,493 persons, respectively, with the result that the output of coal in these two provinces increased by about 2 million tons. The classes from which the colliery labour is recruited being largely agricultural, a favourable monsoon results in a shortage, since the miner leaves the collieries to cultivate his fields and only returns when his work is completed and his savings exhausted.

Output *per capita*

The *per capita* output of coal in India in 1919 is compared with the results of the immediately preceding four years in the marginal table. The Indian miner is still to some extent a miner by caprice, and, as stated above, in a year of agricultural prosperity the scarcity of labour is much felt. Epidemics of cholera and other diseases are not infrequent and cause a shortage of labour. As the workings get deeper, the need of a mining population, which specialises in mining, will become greater. The total number of fatal accidents during 1919 was 287, giving a death rate of 1·41 per 1,000 persons employed. There has been a great advance in the use of electricity in the coal mines of Bengal and Bihar for haulage, pumping, lighting, and ventilation. There is, however, little or no coal-cutting by machinery. Occasionally a plant is put down for the purpose of making long connections underground rapidly, but as long as labour conditions remain as they are, there will not be much headway in the introduction of mechanical coal-cutters.*

	Above and below ground. Tons	Below ground only Tons
1915	106·8	160·2
1916	110·2	169·4
1917	108·9	173·5
1918	108·3	171·8
1919	111·1	177·2

Imports

The quantities of foreign coal imported into India from the principal countries during the last twenty-nine years are given in table No. 35. For the first fifteen years quinquennial averages only are shown. The figures represent only private merchandise and do not include Government stores, the imports of which amounted to 200 tons in 1919, as against 13,100 tons in 1918. The largest quantity imported in any one year of the series was some 820,000 tons, valued at R1,47 lakhs, in the year 1894. The statistics for succeeding years are marked by considerable fluctuations. In 1919 the imports amounted to 48,700 tons, or a decrease of 10 per cent as compared with the previous year. Bombay has naturally been the largest importer, and the second place which had hitherto been enjoyed by Burma was conceded to Bengal in 1919. The United Kingdom had usually supplied by far the greatest part of imported coal. In 1919 the largest quantity came from Natal. On the average of the twenty-nine years of the series, Australia holds the second place and Japan the third. The United Kingdom sent to India 5,643 tons in 1919, as against 8,724 tons in the previous year. The imports from Australia, which in 1912 amounted to 92,000 tons, declined to 3,329 tons in 1919. The imports from Japan in 1919, were 927 tons. The imports from Natal were insignificant until 1907, the largest quantity imported being 136,700 tons in 1913. Natal's share in 1919 was 18,089 tons. The only other country from which coal is now imported into India in any considerable quantity is Portuguese East Africa, from which the imports in 1919 amounted to 16,880 tons, as against 22,680 tons in 1918.

The provincial shares of imported coal in 1919 were: Bombay, 77 per cent of the total imports Bengal, 14 per cent; Burma, 8 per cent; and Madras, 1 per cent.

Exports

The total quantity of Indian coal exported from India during the last twenty-nine years and the share of each of the principal importing countries are shown in table No. 36. As in the case of import statistics, quinquennial averages only are given for the first fifteen years. Bunker coal and Government stores are not included in this statement, which relates only to coal shipped as private merchandise to foreign ports. The exports rose in proportion to the expansion in production up to the year 1906; thereafter there was a progressive decline in the ratio up to 1909. This decline was arrested in 1910, but there has again been a contraction in subsequent years. On the average of the seven years 1900 to 1906, the exports were 8 per cent of the total production of Indian coal, as against 6 per cent on the average of the succeeding seven years 1907 to 1913, and 2·9 per cent on the average of the six years, 1914 to 1919. In 1919 the ratio was 2·2 per cent. That is to say, exports in 1919 were in the proportion of only one ton to about 44 tons produced. The bulk of the production is thus consumed in the country. Almost all the coal shipped from India as private merchandise is sent from Calcutta. Ceylon and the Straits Settlements are the two principal markets for Indian coal, and of the total quantity shipped in 1919, 58·2 per cent was for Ceylon† and 22·9 per cent for the Straits. From 1902 to 1906 the total exports abroad increased rapidly and reached 1,003,000 tons in 1906; but from 1907 the exports have not shown that expansion which might have been expected in view of the increased production. In 1919 the shipments rose considerably to 508,500 tons from 74,500 tons in 1918 and 408,100 tons in 1917.

Distribution

In table No. 37 is shown the total available supply of coal (Indian and Foreign) in India, which is arrived at by adding imports (*minus* re-exports) to the total production and subtracting exports therefrom. In 1919 the figure stood at 22,168,000 tons, as compared with 20,702,000 tons in 1918 and 16,541,000 tons five years ago. From this figure the consumption of coal per head of population comes to ·07 ton or about 1½ cwt a year.

Tables Nos. 38 and 39 show the distribution of coal produced in the country and imported from abroad, and the agencies by which it is distributed. Calcutta uses almost exclusively Bengal and Bihar and Orissa coal. The province of Bihar and Orissa is self-supporting, although it takes a small quantity of Bengal coal. Bombay city derives its supplies by sea from foreign countries and by rail from Bengal and Bihar and Orissa, partly for its own consumption and partly for distribution throughout the Bombay Presidency, which also receives considerable quantities by rail from Bengal, Bihar and Orissa, the Central Provinces, and Hyderabad. Madras imports most of its coal from Bihar and Orissa, but also draws part of its supply from Bengal and Hyderabad. Sind draws its supply mainly from Bihar and Orissa and Bengal. Assam, the United Provinces, the Punjab, the Central Provinces, Rajputana, and Central India import the bulk of their requirements by rail and river from Bihar and Orissa and Bengal. Most of the coal consumed in Mysore comes mainly from the Hyderabad, Bengal, and Bihar and Orissa mines. Burma gets its supply by sea from Bengal and foreign countries.

* *Vide* Records of the Geological Survey of India, Vol. XLVI, 1915

† For use of steamers as well as for exports abroad

The supply available in the cities of Calcutta and Bombay and in each province is given in table No. 40. Consumpti
The quantity available in Calcutta in 1919 was 2¾ million tons, while that in the city of Bombay was about 1½ million tons.

The statement in the margin gives an estimate of the quantity of coal (Indian and foreign) consumed during 1919, in the different classes of industries, railways, etc., but the figures can only be regarded as approximate, and in the case of some of the heads they represent a very rough estimate.

	Estimated consumption Tons	Per cent of total
Railways	6,056,000(*a*)	27·3
Bunker coal	1,576,000	7·1
Iron and brass foundries (including Engineering workshops)	1,262,000	5·7
Cotton mills	1,033,000	4·7
Jute mills	891,000	4·0
Admiralty and Royal Indian Marine Shipping Accounts	798,000	3·6
Brick and tile factories (including potteries and cement works)	520,000	2·4
Inland steamers	517,000	2·3
Tea gardens	229,000	1·0
Paper mills	168,000	·8
Port Trusts	163,000	·7
Consumption at collieries and wastage	2,715,000	12·2
Other forms of industrial and domestic consumption*	6,240,000	28·2
TOTAL	22,168,000	100

Consumption on railways.—Table No. 41 shows the total quantity of Indian and foreign coal and of wood and oil fuel consumed on all the railways in India during the last thirty years, according to statistics obtained from the Railway Board. At the beginning of this period (1890) the total consumption of coal was about 858,000 tons, of which foreign coal constituted nearly one-fourth. Ten years later (1899) the total consumption was 1⅔ million tons, and Indian coal represented nearly 95 per cent, thus marking a rapid and vigorous displacement of foreign coal. In 1919-20 the total consumption amounted to 6 million tons as compared with 5 million tons in the pre-war year of 1913-14, and practically the whole quantity was Indian coal. The railway consumption of Indian coal averaged 33 per cent of the total quantity of coal produced in India in the ten years ending 1899, 30 per cent both in ten years ending 1909, and in the last ten years ending 1919-20, although in 1919-20† the lowest percentage 27 was recorded. The consumption of wood as fuel on railways decreased almost steadily from 1904 to 1914-15; since then there has been an increase. In 1919-20, the quantity used was 322,000 tons, as compared with 335,000 tons in 1918-19. This amount may be regarded as equivalent to 129,000 tons of coal, 2½ tons of wood being taken as equivalent to one ton of coal. Wood is used largely on the South Indian, the Burma, the Madras and Southern Mahratta, the North-Western, and the Bombay, Baroda, and Central India Railways. Besides coal and wood, 53,000 tons of fuel oil were used on Indian Railways in 1919-20; this is equivalent to 96,400 tons of coal, ·55 ton of fuel oil being equal to 1 ton of coal.

Consumption on Admiralty and Royal Indian Marine Shipping Accounts.—Figures have been supplied by the Mining Engineer, Railway Board. The consumption in 1919 was 798,000 tons.

Bunker coal.‡—Statistics relating to the shipment of bunker coal have been obtained from the different Custom Houses. The total shipments in 1919 amounted to 1,576,000 tons. The details are:—Calcutta 560,000 tons, Bombay and Karachi 863,000 tons§, Madras 43,000 tons; and Rangoon 110,000 tons.

Cotton and jute mills.—In the case of cotton mills, only 58 out of 262 mills have sent in reports. In the case of mills which have furnished no returns, estimates have been made on the basis of the number of looms and spindles at work. In the case of jute mills, data have been furnished by the Indian Jute Mills Association.

Iron and brass foundries (including engineering workshops).—The total reported figure comes to 1,095,000 tons. In the case of foundries which have not furnished returns, estimates have been made on the basis of the number of persons employed.

Port Trusts.—Statistics of consumption in the workshops, ferry steamers, etc., at the principal ports have been supplied by the different Port authorities.

Inland steamers.—The total reported figure comes to about 514,000 tons a year; there are some smaller companies which have not furnished returns and whose consumption has been estimated on the basis of the census figures of 1917.

Brick and tile manufacture.—On the basis of the census figures of 1916 and 1917, it is estimated that 2 to 3 per cent of the total amount of raisings is used in the brick and tile industry.

Tea gardens.—Estimates have been framed on the basis of data furnished by most of the important tea companies. On many tea estates wood is the only or chief fuel used.

(*a*) For the official year 1919-20

* Domestic consumption in Calcutta and its neighbourhood was estimated by the Coal Controller in 1917 at 200,000 tons per year.

† The percentages for the last ten years are:—

1910	32%	1913-14	29%	1916-17	32%	1919-20	27%
1911	33	1914-15	30	1917-18	31		
1912	31	1915-16	30	1918-19	28		

‡ Bunker coal is not included in the figures of export

§ Excluding about 292,000 tons of coal supplied to vessels carrying cargo coal for the Admiralty and Royal Indian Marine

Paper mills.—The consumption in 1919 is estimated at 168,000 tons on the basis of reports furnished by the millowners.

Consumption at collieries and wastage.—Twelve per cent of the total production has been taken for consumption at collieries and wastage.

Other forms of industrial and domestic consumption.—A large part of the balance of 6·2 million tons must also be debited to industrial consumption and only a small part to domestic consumption; for, besides the important classes of industries mentioned above, there are numerous other classes of establishments and factories which are worked by steam, the principal amongst which are cotton gins and presses, jute presses, flour and rice mills, dockyards, oil mills, water works, electric supply works, tramway works, gold mines, sugar factories, gas works, lime works, breweries and distilleries, petroleum refineries, ice, mineral and ærated water factories, mints, municipal workshops, stone works, woollen mills, mining works (other than coal), chemical works, dye works, indigo and lac factories, glass works and rope works.

Capital employed

The growth of the coal-mining industry may be roughly gauged from the marginal table, showing the number of Joint Stock Coal Companies and their total paid-up capital. The total amount of capital employed in the coal-mining industry cannot be stated, as reports relating to capital are received only from Joint-Stock Companies, and the capital employed by private individuals and syndicates is not known. There were 228 Joint Stock Coal Companies at work in Bengal and Bihar and Orissa on the 31st March, 1920. Collieries worked by Joint Stock Companies accounted for 72 per cent of the total output of the Bengal and Bihar and Orissa coal-fields in 1919. Outside Bengal and Bihar and Orissa, there were only 8 Joint Stock Companies at work during the year. Six of the Coal Companies at work on the 31st March, 1920, have a paid-up capital (exclusive of debentures) of R15,00,000 (£100,000) or more, as shown in the margin. There are twenty-four other, each of which has a paid-up capital of R7,50,000 (£50,000) or above but less than R15,00,000 (£100,000).

India and Japan

The production, imports, exports, and the balance left for consumption of coal in India and Japan from 1891, are compared in table No. 42. In the first quinquennial period, the production of coal in Japan averaged about a million tons more than that of India. Since then the production of Japan has gone ahead, and, in 1919, it exceeded that of India by 8,139,500 tons. As regards the foreign import trade, India, as already noted, diminished her imports from abroad steadily till 1905 when a revival took place, but from 1915 the imports again declined (49,000 tons in 1919). Imports into Japan, under normal conditions, were inconsiderable in comparison with India until 1908; since then there has been an increase, the imports in 1919 having reached 688,000 tons. Production in Japan has always exceeded the requirements of her internal consumption, leaving a considerable surplus for export; whereas, India has little to spare after meeting her own requirements; the net exports from Japan in 1919 amounted to 1¼ million tons, as compared with about half a million tons from India. The quantity left for internal consumption was about the same (nearly 11 million tons) in both the countries in 1907. In 1908 India retained about two-thirds of a million tons more than what Japan did, but from 1909 the quantity retained for consumption in Japan has always exceeded that in India, the excess in 1919 amounting to over 7¼ million tons.

British Empire and Foreign countries

Table No. 43 gives comparative statistics of the average value of coal at the pit's mouth in the different parts of the British Empire and in the principal foreign countries for a series of years so far as available.

JOINT STOCK COMPANIES

[FOR TABLES, SEE PAGES 97 to 126]

Source of statistics

The statistics are compiled from reports and returns prepared by the Registrars of Joint Stock Companies in British provinces under the Indian Companies Act, IV of 1882 (repealed by Act VII of 1913 which came into force on the 1st April, 1914), the Indian Life Assurance Companies Act, VI of 1912, and the Provident Insurance Societies Act, V of 1912, in the State of Mysore under the Mysore Companies Regulation, III of 1895 (repealed by Regulation VIII of 1917) in the Baroda State under the Baroda Companies Act, III of 1897 (repealed by the Baroda New Companies Act, II of Samvat 1975, which was passed on 12th December 1918); in the Gwalior State under the Gwalior Companies Act, Samvat 1963; and in the Indore State under the Indore Companies Act.

(*a*) The Company was registered in the United Kingdom
(*b*) The Company is also engaged in gold, diamond, etc., mining operations

Main features of the year

The number of newly registered companies (both public and private) increased in the year under review on an unprecedented scale by 227 per cent, as compared with the preceding year, the authorised capital of new companies, over thirteen times from R21 crores to R282 crores, and the paid-up capital, over six times from R25 lakhs to R158 lakhs. The number of private companies registered in 1919-20 was 244, as against 113 in 1918-19. The companies (both private and public) that were formed were as follows :—

	Companies registered Number	Authorised capital R(1,000)	Paid-up Capital R(1,000)
1913-14 (pre-war year)	356	66,91,53	76,94
1914-15	112	4,43,19	28,24
1915-16	131	7,20,49	66,82

Coal mining	16,95	97,25	3,11,45
Other mining and quarrying companies	49,50	86,25	21,08,70
Land and building	7,00	6,95	8,58,80
Other companies	16,78	50,78	8,37,25
TOTAL	66,91,53	21,27,55	2,81,76,12

This boom in company flotation, both in new enterprises and in the conversion of established concerns into limited companies, was mainly due to the cessation of the unsettled conditions arising from the war and the accumulation of the large profits, which were made in certain directions during, and as the result of, the war, coupled with the withdrawal from the Indian Statute Book of the Indian Companies Restriction Act, XII of 1918, with effect from the 24th September 1919.

In the year under review (1919-20), 118 companies ceased to do business, as against 165 a year ago.

Companies limited by shares incorporated in India

The total number of companies limited by shares, which were incorporated in India up to 1919-20 under the laws relating to the registration of companies, was 8,887. Of these, 3,668 companies were working at the end of the year 1919-20, most of the remainder having been either wound up, or otherwise discontinued or never having commenced business, so that over 59 per cent of the companies registered ceased working. Some companies were, before the war, taken off the Indian register to be reconstructed as companies under the English law with their head offices in London, while, after the outbreak of war, some companies incorporated in the United Kingdom were taken off the English register and reconstructed as companies under the Indian Act. All the companies registered in India have a rupee capital. The number of all companies at work and the capital invested in them stood as follows at the end of each of the last three years :—

		1917-18	1918-19	1919-20
Companies	(Number)	2,668	2,789	3,668
Authorised capital	(R1,000)	2,34,18,85	2,55,09,50	5,48,22,59
Paid-up capital	(R1,000)	99,11,21	1,06,61,45	1,23,21,36

There was thus an increase in the year under report of 879 in the number of companies, or about 31 per cent, as against the previous year, of R2,93 crores in the authorised capital, or an increase of about 115 per cent, and an increase of over R16 crores, or 16 per cent, in the paid-up capital.

Changes during the year

The changes in the year, which produced the results shown above, were :—

(1) 117 companies, with an authorised capital of R10,16 lakhs, and a paid-up capital of R3,23 lakhs ceased to do business ;

(2) 905 new companies, with an authorised capital of R2,75,53 lakhs and a paid-up capital of R80 lakhs were registered in British India and Mysore during the year ;

(3) one company with an authorised capital of R25 lakhs and a paid-up capital of R6 lakhs was revived under order of the court ;

(4) one company limited by guarantee was converted into a company limited by shares, with an authorised capital of R20,000 ;

(5) 89 companies registered in Baroda, Indore, and Gwalior with an aggregate authorised capital of R11,55 lakhs and paid-up capital of R3,09 lakhs and at work on 31st March 1920 were included for the first time ;

(6) the authorised capital of 137 companies was raised by R17,03 lakhs while that of five companies was reduced by R1,07 lakhs ;

(7) the paid-up capital of 718 companies was increased by R16,09 lakhs while that of 62 companies was reduced by R21 lakhs.

Distribution according to provinces

The following statement shows the number of companies at work, and the amount of paid-up capital, in each of the provinces and Indian States at the end of the last two years :—

Province	Number of Companies		Paid-up Capital		Increase+ or decrease— per cent in capital in 1919-20	Provincial proportion of paid-up capital to total paid-up capital in 1919-20
	1918-19	1919-20	1918-19	1919-20		
			R(1,000)	R(1,000)	per cent	per cent
Bengal	1,264	1,742	43,24,98	53,38,29	+23·4	43·3

Total	(a 2,789	3,668	(a)1,06,61,45	1,23.21,36	+15·6	100

a) Excluding Baroda, Gwalior, and Indore.

The total net increase in paid-up capital was R16,60 lakhs, Bengal accounting for R10,13 lakhs, Bombay R3,97 lakhs, and Madras R46 lakhs. Bengal and Bombay between them had 79 per cent of the whole paid-up capital.

Average capital pe company

The number of companies registered in Bengal was about 48 per cent of the total number registered throughout India, but the average paid-up capital per company was highest in Bombay. In this respect the Gwalior State occupied the second place and Burma the third, as will be seen from the subjoined table showing the average paid-up capital of a company in each province and State in the last two years :—

	Average Capital of a Company 1918-19 R	1919-20 R
Bombay	7,08,000	5,91,000
Gwalior State	—	5,84,000
Burma	5,22,000	5,01,000
Punjab	4,16,000	4,11,000
Delhi	3,32,000	3,44,000
Indore State	—	3,07,000
Bengal	3,42,000	3,06,000
Baroda State	—	1,90,000
United Provinces	3,49,000	1,86,000
Madras	1,78,000	1,63,000
Central Provinces and Berar	1,56,000	1,55,000
Ajmer-Merwara	1,26,000	95,000
Mysore State	69,000	84,000
Bangalore (Civil and Military Station)	90,000	78,000
North-West Frontier Province	48,000	59,000
Assam	47,000	42,000
Bihar and Orissa	46,000	41,000
Coorg	24,000	12,000

The comparatively low place of Madras in respect of the average capital, in spite of its occupying the third place in respect of the number of companies, is to be found in the extremely large application of the Companies Act to the business of small money-lending societies (*nidhis*). No less than 223 out of the 556 "banking and loan" companies in the whole of India were registered in Madras, with a paid-up capital of R2,47 lakhs, or R1,11,000 per company.

The statement below shows the distribution of the aggregate capital in the principal classes of joint stock enterprise at the end of 1919-20, as compared with the preceding year :— Classification of companies

Class of Companies	Number		Authorised Capital		Paid-up Capital	
	1918-19	1919-20	1918-19	1919-20	1918-19	1919-20
			R(1,000)	R(1,000)	R(1,000)	R(1,000)
Banking and loan	493	556	65,57,94	94,03,37	8,45,38	9,35,06
Insurance	97	98	16,67,71	74,55,91	56,32	82.75
Navigation	23	31	8,83,90	39,93,90	1,49,86	1,49,88
Railways and tramways	55	52	16,13,40	16,42,90	13,46,81	13,68,00
Other trading companies	879	1,346	43,96,32	1,23,80,84	19,75,68	28,32,02
Cotton mills	192	247	25,96,12	51,38,98	18,00,78	19.79,82
Jute mi ls	43	55	13,69,46	19,36,46	10,52,75	11,65,26
Mills for wool, silk, hemp, etc.	14	21	3,68,75	7,56,75	2,37,66	1,23,51
Cotton and jute screws and presses	129	141	3,79,10	5,64,50	2,68,47	2,67,83
Rice mills	20	36	2,17,36	3,45,36	77,76	1,22,32
Flour mills	27	35	1,03,75	1,40,00	74,52	74,10
Other mills and presses	50	84	4,30,06	7,67,81	1,59,09	2,14,71
Tea planting	314	385	9,78,07	12,37,91	6,26,30	6,81,98
Other planting companies	42	56	1,46,14	3,39,26	79,59	92.28
Coal mining	187	232	9,82,37	13,92,02	7,16,76	7,40,90
Gold mining	6	6	24,57	24,58	17,73	17,84
Other mining and quarrying companies	77	98	18,84,86	41,56,05	6,16,27	7,54,92
Land and building	42	58	4,33,18	13,40,98	3,54,49	3,64,06
Sugar manufacture	20	24	1,59,88	2,14,08	88,00	87,35
Other companies	79	107	3,16,56	15,90,93	1,17,23	2,66,77
Total	2,789(a)	3,668	2,55,09,50(a)	5,48,22,59	1,06,61,45(a)	1,23 21,36

(a) Excluding Baroda, Gwalior and Indore.

The total paid-up capital invested in banking, loan, and insurance companies amounted to R10,18 lakhs, of which 24 per cent was in companies registered in the Madras Presidency, 22 per cent in the Bombay Presidency and 21 per cent in the Punjab. There is a striking contrast between the authorised and the paid-up capital of insurance companies. Most of these are the so-called provident or mutual aid societies registered in Bengal, where no less than 54 out of the 98 insurance companies were registered. Banking, loan, and insurance

Trading companies accounted for a paid-up capital of R43,50 lakhs, of which R13,68 lakhs, or about 31 per cent, were invested in railways and tramways. Bombay contributed about R7,07 lakhs or 52 per cent and Bengal R6,49 lakhs or 47 per cent of the total capital invested in railways and tramways. Trading

About one-third (R39,48 lakhs) of the aggregate paid-up capital was invested in mills and presses, chiefly for working or pressing cotton, jute, wool, and silk. A great number of the mills and presses were registered in Bombay which appropriated nearly 44 per cent (R17,48 lakhs) of the total, most of it being invested in cotton mills and presses. Mills and presses (mainly jute) registered in Bengal had over four-fifths (R14,67 lakhs) of the capital invested in mills and presses in Bombay. Mills and presses

In tea, coffee, and other plantations, a paid-up capital of R7,74 lakhs was invested, and of this amount R6,56 lakhs were held in Bengal, the majority of the tea companies owning gardens in north-eastern India being registered in Calcutta. Planting

The capital of mining and quarrying companies was R15,14 lakhs, of which 55 per cent (R8,35 lakhs) was invested in companies registered in Bengal, most of it representing capital invested in coal mines. Mining and quarrying

In the year under review there was a substantial increase in the paid-up capital allotted to the manufacture of cotton, jute, rice. and to banking and loan, tea planting and coal mining. The increase in the capital invested in insurance, railways and tramways was also considerable. In cotton and jute screws and presses, in flour, silk, and woollen mills, and sugar mauufacture, there was a decrease. In most other directions, it may be noted, there was an augmentation of capital. Summary

The noticeable feature in the new registration was a great increase in the average authorised capital of the new companies as compared with that of the old ones. This is due partly to the decreased purchasing value of the rupee, partly to the ease with which subscriptions were obtained in the market, and partly to a realisation that many of the older companies on the register were very much under-capitalised. As stated above, 948 new companies were registered during the year 1919-20, with an authorised capital of R2,81,76 lakhs and a paid-up capital of R1,58 lakhs as compared with 290 companies with an authorised capital of R21,27 lakhs and a paid-up capital of R25 lakhs registered in 1918-19. The following statement gives a classification of the new companies registered in 1918-19 and 1919-20 according to the amount of their authorised capital :— New registration

Grades of new companies according to capital

Authorised Capital	Number of Companies 1918-19	1919-20
Under R1,000	1	2
R 1,000 and under R 5,000	1	3
R 5,000 ,, ,, R 10,000	3	2
R 10,000 ,, ,, R 20,000	3	8
R 20,000 ,, ,, R 50.000	36	61

R 10,00,000 and above	40	334
	200	948

Debenture capital

It should be noted that the capital dealt with in the foregoing paragraphs represented share capital only, while several companies issued debentures in addition, the total value of which at the close of the half-year ending June, 1920, amounted to R12,67 lakhs, and of this amount R5,83 lakhs belonged to Bengal, R5,69 lakhs to Bombay, R18 lakhs to the United Provinces, R27 lakhs to Madras, R68,97,000 to the Punjab and R57,000 to Assam. The value of cotton mill debentures amounted to R3,57 lakhs, of jute mill debentures R3,15lakhs, and of paper mill debentures R22 lakhs.

Companies limited by guarantee and associations not for profit

At the close of the year 1918-19, there were 224 companies limited by guarantee, not having a share capital (including associations not for profit), incorporated in India under the Indian Companies Act. Of these, 4 ceased to work, and one was converted into a company limited by shares during 1919-20, 16 new companies were registered and one in the Indore State was included in the list during the year. There was thus a total of 236 companies at work on the 31st March, 1920.

Companies incorporated outside India

Statistics have been collected, so far as possible, regarding companies which have been incorporated elsewhere than in India, chiefly with sterling capital, but which carry on work in India. The total number of such companies working at the end of 1919-20 for which returns were available was 634, and the paid-up capital thereof amounted to £420,633,000, besides £102,730,000 being the amount issued as debentures. Railways represented £35,444,000 of the paid-up capital and £41,907,000 of the debentures. Of the remainder, the sterling share capital invested in the tea industry was £17,990,000 and in jute mills £2,394,000. The gold fields in Southern India are chiefly worked by companies formed in the United Kingdom, the paid-up sterling capital invested therein being £2,085,000. It should, however, be borne in mind that in the case of most of the banking and insurance companies and of some of the navigation and other trading companies incorporated outside India, only a portion, sometimes a very small portion, of the capital shown above is invested in India, as these companies work also in other countries besides India, and information regarding the portion of their capital invested in India is not obtainable.

Fees collected

The amount of fees, for both registration and copying, realised by the Registrars of Joint Stock Companies in connection with the registration of companies in the year under review, amounted to R4,54,006 as compared with R1,21,223 in the preceding year.

PATENTS AND DESIGNS

[For Table, see page 127]

The laws for granting exclusive privileges to inventors and for protecting patterns and designs were amended and consolidated by the passing of the Inventions and Designs Act, V of 1888. This Act was repealed by the Indian Patents and Designs Act, II of 1911, which came into force on the 1st January, 1912, but certain applications made under the repealed Act of 1888, which were pending at the close of 1911, were disposed of in 1912. The year 1912 was, therefore, one of transition during which two methods of procedure were in force, so that the figures and details from that year are not strictly comparable with those of earlier years. The statistics presented in this table summarise the working of the law for the last ten years.

Patents

The inventions for the use of which exclusive privileges have been sought or acquired during recent years relate in the main, so far as the subjects are enumerated, to bicycles and similar vehicles, the manufacture of tea, railway material, lamps and burners, the treatment of metals, electrical contrivances, spinning and weaving machines, water-lifts and pumps, sugarcane and other mills, chemical appliances and preparations, improvement in building and building materials, flying machines, and talking machines. The number of applications made in 1919, under section 3 of the Indian Patents and Designs Act of 1911 for the grant of a patent, was 1,039. In the year 1913 before the war, the number of applications for patents was 705. It fell to 442 in 1916. In 1917 a revival set in and the figure rose to 602. There was a sharp rise in the figure from 644 in 1918 to 1,039 in 1919.

Of the 1,039 applications for the grant of a patent presented during 1919, 706 were accepted and 333 were pending. Of the applications 313 were made by residents in India, of whom 113 were Indians and 200 other residents. The remaining 726 came from outside India.

The number of patents in force on 31st December, 1919, was 2,973. These include 2,478 patents out of 3,775 sealed on 5,143 applications under the Act of 1911, together with 40 of the 148 patents converted under section 81 of that Act. The balance 455 consists of exclusive privileges remaining under the Act of 1888.

Designs

The number of applications for registering copyright in designs during the year shows a further decrease—there were 884 in 1919 as compared with 1,411 in 1918, 1,591 in 1917, and 1,773 in 1916. Of the 884 applications made, 852 were registered, only 16 of them being from residents in India. The total number of applications received since the Act of 1888 stood at 10,033 at the end of 1919.

The income increased from R95,166 in 1918, to the record figure of R1,29,672 in 1919. Of the total receipts the sum of R86,500 represented continuance fees, by payment of which existing privileges are kept in force.

FOREIGN TRADE AND SHIPPING

[FOR TABLES, SEE PAGES 129 TO 164]

These tables, which include imports and exports on account of Government, exhibit, for various periods extending in some cases back to 1834-35, the progress of the foreign sea-borne trade of India generally, and of each province separately, in the principal articles of trade, and with the principal foreign countries, as well as that of shipping. They thus supplement the annual accounts of the foreign trade which exhibit the progress of the trade for only five years.

Progress of foreign sea-borne trade

The following statement shows the variations in the imports and exports (including re-exports) from 1885-86 given in table No. 52, the annual average trade of the ten years 1904-05 to 1913-14 (*i.e.*, the decennium preceding the outbreak of war) being taken as 100 :—

	Imports			Exports, including re-exports		
	Merchandise	Treasure	Total	Merchandise	Treasure	Total
1885-86 to 1894-95 .	50	37	47	51	36	50
1895-96 to 1904-05 .	61	56	60	62	108	64
1905-06 . .	83	76	81	83	170	87
1906-07 . .	86	107	91	91	63	90
1907-08 . .	101	101	101	91	60	90
1908-09 . .	95	55	85	79	69	78
1909-10 . .	90	90	90	96	70	95
1910-11 . .	98	95	98	108	78	106
1911-12 . .	106	128	111	117	114	117
1912-13 . .	123	148	129	126	117	126
1913-14 . .	141	104	132	128	78	126
1914-15 . .	107	52	94	93	58	92
1915-16 . .	102	29	85	102	90	102
1916-17 . .	118	92	112	127	70	124
1917-18 . .	121	124	122	125	83	124
1918-19 . .	139	171	146	131	99	130
1919-20 . . .	163	188	169	170	150	170

A full report of the trade of each year will be found in the *Review of the Trade of India*, which has been published annually for the past forty-seven years.

The statement below shows the details of the total sea-borne trade, both private and Government, during the five years ending 1919-20 :

	1915-16	1916-17	1917-18	1918-19	1919-20
	Rupees (000 omitted)	Rupees (000 omitted)	Rupees (000 omitted)	Rupees (000 omitted)	Rupees (000 omitted)
Imports of Merchandise	138,16,93	160,24,90	164,35,49	188,56,24	221,70,24
„ Treasure	11,94,62	38,45,27	51,76,43	71,36,55	78,23,89
TOTAL IMPORTS .	150,11,55	198,70,17	216,11,92	259,92,79	299,94,13
Exports of Merchandise	199,56,24	247,36,48	244,90,39	255,32,03	332,75,78
„ Treasure	8,22,58	6,41,72	7,54,39	9,01,03	13,67,98
TOTAL EXPORTS .	207,78,82	253,78,20	252,44,78	264,33,06	346,43,76
TOTAL SEA-BORNE TRADE .	357,90,37	452,48,37	468,56,70	524,25,85	646,37,89
Net Imports of Treasure	3,72,04	32,03,55	44,22,04	62,35,52	64,55,91
Net Exports of Merchandise	61,39,31	87,11,58	80,54,90	66,75,79	111,05,54
Excess of Exports over Imports	57,67,27	55,08,03	36,32,86	4,40,27	46,49,63

The imports of merchandise rose by R33 crores to over R222 crores, while the total exports, including re-exports, increased by R77 crores to R333 crores. The ratio of increase or decrease is shown below, by taking the figures for 1919-20 as equal to 100 :

	1915-16	1916-17	1917-18	1918-19	1919-20
Exports of merchandise	59·9	74·3	73·6	76·7	100
Imports „ „	62·3	72·3	74·1	84·9	100
Total	61·0	73·6	73·8	80·1	100

There were noticeable increases in the value of the imports from the United Kingdom (+R24·51 crores) and from the United States (+R11·49 crores); while those from Japan showed a decrease of R14·38 crores. Bengal shared the largest increase of R18 crores, and Bombay including Sind came next with R10 crores.

The principal articles showing marked variations are shown in the table below :

		Quantity (000 omitted)		Value (000 omitted)		Increase+or Decrease— per cent compared with 1918-19

Exports

Under exports, the United Kingdom accounted for an increase of R24 crores, the United States of America of R15 crores, Belgium of R10 crores, and Japan of R17 crores as in the preceding year. The share of Bengal in the export trade advanced by R34 crores, of Bombay including Sind by R37 crores, and of Madras

by R11 crores, while that of Burma fell by R6 crores. The principal articles which showed marked variation are shown in the appended table :

		Quantity (000 omitted)		Value (000 omitted)		Increase + or decrease — per cent compared with 1918-19	
		1918-19	1919-20	1918-19	1919-20	Quantity	Value

Trade of ports

The trade of the principal ports of India is detailed in table No. 66. Bombay shows an increase of R44·4 crores, Calcutta of R51·4 crores, Madras of R7·3 crores, Rangoon of R2 crores and Karachi of R1·5 crores.

Treasure

In 1919-20 the imports of treasure increased by R6·9 crores, gold showing an increase of R46 crores, but silver a decrease of R39·1 crores. Exports of treasure increased by R4·7 crores, gold showing an increase of R5·1 crores, while silver decreased by R41 lakhs.

A summary table of the imports and exports of gold and silver is given below :

	1915-16	1916-17	1917-18	1918-19	1919-20
	R (000 omitted)	R (000 omitted)	R (000 omitted)	R (000 omitted)	R (000 omitted)
Imports of gold	5,28,17	13,33,79	29,09,49	2,27,63	48,25,16
Exports of gold	6,39,08	10,25	3,91,63	7,84,01	12,92,13
Net Imports of Gold	—1,10,91	13,23,54	25,17,86	—5,56,38	35,33,03
Imports of silver	6,66,45	25,11,48	22,66,94	69,08,92	29,98,73
Exports of silver	1,83,50	6,31,47	3,62,76	1,17,02	75,85
Net Imports of Silver	4,82,95	18,80,01	19,04,18	67,91,90	29,22,88

Shipping

The number and tonnage of steamers and sailing vessels with cargoes and in ballast which entered from and cleared to all countries during 1919-20 were 8,228 and 13 million tons, as detailed below, as compared with the previous four years :—

		1915-16	1916-17	1917-18	1918-19	1919-20
Entered	Vessels	4,212	4,968	5,499	4,644	4,072
	Tons (000 omitted)	6,038	5,885	5,250	5,252	6,498
Cleared	Vessels	4,422	5,418	5,960	4,860	4,156
	Tons (000 omitted)	6,114	6,070	5,618	5,285	6,502

In 1919-20 the number of vessels under the principal flags were British and British Indian 4,882, Japanese 406, Norwegian 104, American 89, Italian 85, Dutch 72, French 38, Swedish 30, Chinese 20, Russian 18, Greek 15, and native craft 2,432.

WRECKS

[FOR TABLE, SEE PAGE 165]

This table exhibits the number of British and British Indian vessels and native craft, which were totally lost in Indian waters (from Suez to Penang), the total tonnage of vessels wrecked, and the number of lives lost, in the past twenty-five years.

The number and tonnage of each class of vessels annually lost from 1877 and the proportion which the number and tonnage bear to the total number and tonnage of vessels that cleared from Indian ports, are approximately as follows :—

	BRITISH								BRITISH INDIAN				NATIVE CRAFT			
	STEAM				SAILING				SAILING							
	Number lost	Tonnage	Ratio borne to		Number lost	Tonnage	Ratio borne to		Number lost	Tonnage	Ratio borne to		Number lost	Tonnage	Ratio borne to

Eighty-one vessels were totally lost in 1919, of which 22 were British, 45 British Indian, and 14 native craft excluding three vessels of foreign nationality. There were 24 founderings, 46 strandings, 6 collisions, and 5 miscellaneous cases amongst the wrecks. In a total of 81 wrecks, 99 lives were reported to have been lost during the year.

The causes of exceptional loss of life in certain years are stated below—

1876. 400 pilgrims perished in the *Hydari*, bound from Calcutta to Jeddah.

1879. Continuous bad weather, and a cyclone, on the west coast of India in May.

1885. The *Speke Hall* foundered (58 lives lost) in the Gulf of Aden; and three vessels were wrecked (239 lives lost) in cyclones in the Bay of Bengal and on the east coast of Arabia.

1887. The *Sir John Lawrence* foundered (750 lives lost) at the mouth of the Hooghly in a cyclone.

1888. The *Vitarna* (800 lives lost) wrecked off the Káthiawár coast in a cyclone.

1891. Four vessels were wrecked in a cyclone in the Bay of Bengal.

1892. The *Deccan* foundered (214 lives lost) in the Indian Ocean.

1896. The *Luna* was wrecked (75 lives lost) in the Gulf of Aden.

1902. The *Camorta* was wrecked (781 lives lost) on the Burma Coast.

1905. The *Hashemi* foundered (74 lives lost) off the south Orissa coast in a cyclone.

1911. The *Fifeshire* was wrecked (24 lives lost) in the Gulf of Aden.

1912. The *Chinho* foundered (100 lives lost) in the Hlaing river near Tantabin (Burma).

1913. Two vessels (*Aungzeya* and *Mombai Salamat*) capsized, the former near Onbinzeik, Attaran river (Burma), and the latter in the Gulf of Cambay, the total number of lives lost being 83.

1916. The *Pobha* foundered (38 lives lost) in the Brahmaputra river above Barsolaghat, Assam.

1917. The *Jumna* and the *Mongolia* foundered, the former off Perim in the Red Sea (29 lives lost), and the latter as the result of striking a mine off the Bombay coast (25 lives lost). Four other steamers struck mines with the loss of 23 lives.

1918. The *Kum Chow* left Rangoon on the 4th December 1918 with a cargo consisting chiefly of timber, pig lead, and sleepers for Basra *viâ* Colombo and Bombay, but was never heard of. It is presumed that she encountered cyclonic weather and foundered somewhere in the Bay of Bengal with all hands numbering 56.

1919. The *Girore* left Karachi on the 28th January 1919 for Mandvi and was lost with 25 lives on board. The *Chittagong* left Calcutta on the 14th February 1919 for Mauritius and was lost with 20 lives on board.

MERCHANDISE MARKS

[For Table, see page 166]

The Indian Merchandise Marks Act, IV of 1889, was passed in 1889, but its operation in the earlier years was restricted, especially in Calcutta, in consequence of the lack of adequate Customs machinery for the examination of goods. In 1894, with the introduction of the present tariff, the Customs staff was strengthened for the examination of goods for assessment to duty, and this increase enabled examination to be made at the same time for purposes of the Merchandise Marks Act.

The Act was intended originally to prevent the fraudulent sale of goods bearing false trade marks or false trade descriptions (as of origin, quality, weight, or quantity). While the Act was before the Legislature, a provision was added to require that all piece goods should be stamped with their length in yards. In this respect these goods are an exception, for the Act does not require that other descriptions of goods should be stamped or marked, though it requires that when goods are marked the marks must be a correct description.

In 1919-20 the total number of infringements of the Act were 3,005, as against 3,212 in 1918-19. Of this Bengal reported 708, Bombay 1,570, Burma 156, Madras 246, and Sind 325 cases. There was a decrease in the number of detentions in Bengal, Burma, and Bombay, while Madras and Sind showed an increase. The majority of the infringements (1,953 out of 3,005) were cases of false trade description as to the country of origin. Usually detained goods are released with a fine. In 1919-20, however, this procedure was followed in 2,050 cases; and in 946 cases the detained goods were released without the infliction of a fine, but with a warning to the importers or with orders insisting on the correction of the offending marks. There were, in 1919-20, 9 cases of confiscation of goods, out of which option to reship was given in 6 cases.

The average number of detentions under the Act during the twenty years ending 1919-20 has been as stated in the margin. In this period of twenty years, 28 per cent of the detentions was on account of the application of counterfeit trade marks or false trade descriptions. In 52 per cent of the cases, detention was ordered because the country of origin was either not stated or was falsely stated, and in 20 per cent because the provisions of the Act for the stamping of piece goods had been infringed.

Average of the five years ending	1904-05	1,271

" " " "	1914-15	2,079
" " " "	1919-20	2,831

POST OFFICE

[For Tables, see pages 167 to 200]

The main business of the post office is the conveyance and delivery of letters, postcards, newspapers, parcels, and book-packets. The total length of mail lines over which its work is carried on is 157,481 miles. Railway and steamer services now extend over 53,100 miles of this length, and the other 104,381 miles are worked by boats, mail-carts, horses, camels, motors, and runners. Many carriage and cart lines are, however, subsidised for the carriage of mails. The number of post offices is 19,439, of letter-boxes 50,055 (excluding those at post offices), and of village postmen 8,295. The actual number of registered articles of the letter mail and of parcels posted, added to the estimated number of unregistered articles of the letter mail given out for delivery in 1919-20 amounted to more than 1,329 millions. General. Letters and other articles carried

In 1877 the post office undertook to collect from the addressee the declared value of a parcel or registered article and to transmit the money to the sender. The extent to which this system has been used by traders and their customers is indicated by the fact that in 1919-20—that is 41 years after its introduction—the number of value-payable articles carried was over 11¼ millions and the value declared for realisation amounted to over 19¾ crores. Value-payable parcels

In December, 1898, the limit to the sum for which an article could be insured was raised for registered letters and value-payable registered letters and registered parcels to R2,000, and the procedure in connection with the insurance of articles was simplified, the sender of an insured article being no longer required to declare its contents. The insurance fee was at first fixed at one-half per cent, but shortly afterwards it was reduced to one-quarter per cent, and in July, 1905, it was further reduced to one-eighth per cent. The gross sum for which articles were insured by the post office in 1919-20 was about R133 crores. Insurance of letters and parcels

In 1899 the Indian Post Office joined the International Parcel Post Union; and parcels are now exchanged by post between India and almost every country in the world. International parcel post

In 1880 the Government of India transferred from the treasuries to the post office the business of the issue and payment of money orders, with the result that within a few months the number of orders issued was quadrupled. The value of inland money orders issued has increased from R4,57 lakhs in 1880-81 to R75,21 lakhs in 1919-20. Special arrangements have been made to adapt the money order system to remittances of revenue, rent, and miscellaneous Government dues, and in several provinces the system is largely used for these purposes. The commission on inland money orders is 4 annas for each complete sum of R25, with lower rates of 1 anna, 2 annas, and 3 annas, respectively, for any sums or remainders not exceeding R5, R10, and R15.* Foreign money orders are also exchanged with the principal countries of the world, the maximum Money orders

* With effect from the 18th April, 1921, the following revised rates have been introduced:—

On any sum not exceeding R10—2 annas.
" " " exceeding R10 but not exceeding R25—4 annas.
" " " exceeding R25—4 annas for each complete sum of R25 and 4 annas for the remainder, provided that if the remainder does not exceed R10, the charge for it shall be only 2 annas.

limit of a rupee order being R600 and that of a sterling order £40, except in a few cases in which the maximum limit is £20.

Savings banks*

In 1870 Government savings banks were established in connection with district treasuries. In 1882 sanction was given for the opening of savings banks* at post offices, and three years later the closure of the treasury savings banks was ordered. In 1882-83 the number of depositors in the postal savings banks was 39,000 and the sum at their credit R27,97,000. By the end of 1919-20 the number of depositors was 1,760,442 and the sum at their credit amounted to R21,34,84,628. The post office undertakes on behalf of depositors the purchase and sale of Government promissory notes and the transfer of such notes to the Accountant-General, Posts and Telegraphs, for custody on behalf of the purchaser.

British Postal orders

In 1884 the Indian Post Office undertook the sale of British postal orders. Such orders, ranging in value from 6*d.* to 21*s.*, can now be exchanged with the greater part of the British Empire and are also used for inland remittances.

Postal life insurance

In 1884 sanction was given to a scheme of life insurance, whereby an officer of the postal service is enabled to obtain a policy for a sum not exceeding R4,000† on the security of Government. In 1888 the scheme was extended to the Telegraph Department. In February 1898 the scheme was extended generally to all Government servants, who are subject to civil rules, and a system of endowment assurances was added to the scheme. By the end of 1919-20, nearly 44,000 lives had been insured for the aggregate sum of R6,00 lakhs.

Cash certificates

With effect from 1st April 1917 Post Office 5-years Cash Certificates are being sold at all Post Offices at which Savings Bank business is transacted.

Postal telegrams

In 1883 many post offices were made receiving offices for the transmission of inland telegrams by post to the nearest telegraph office; and telegraph work was also undertaken by the post office in a certain number of offices. The number of telegraph offices has thus been largely increased, and out of 3,577 state (non-railway) telegraph offices on the 31st March, 1920, 3,372 were postal telegraph offices. In 1919-20 the number of messages transmitted by receiving offices was nearly 74,000 and the number of messages signalled by postal telegraph offices was 11,860,000 excluding free messages.

Payment of military pensioners

In 1890 the post office undertook the payment of military pensioners in the Punjab at the post offices nearest their homes. The number of pensioners thus paid in 1919-20 was about 91,241 and the aggregate sum paid to them was over R54 lakhs.

Rates of postage, inland and foreign

Letters and postcards.—With effect from the 1st October, 1907, the weights of letters allowed for ½ anna and 1 anna were raised from ¾ to 1 tola and from 1½ to 10 tolas, respectively but with effect from 1st January, 1919, the weight of letters allowed for 1 anna was reduced from 10 tolas to 2½ tolas.‡ Embossed envelopes bearing a half anna coloured impressed stamp and sold at the face value of the stamp without any charge for the envelopes were introduced in 1873. Formerly an additional charge was made for re-direction, equal to the postage paid when the letter was posted, but the additional charge was discontinued in 1877. The introduction of the inland postcard in 1879 gave a still lower rate of postage than that given by the rate of half an anna per half tola with an envelope supplied without charge. The inland postcard has from its introduction been priced at one pice (three pies) per single card and half an anna per reply card, the price in each case covering the cost of the card as well as postage.

Newspapers and packets.—A new system of "registering" publications as newspapers was introduced in January, 1897, under which a "registered newspaper" of weight not exceeding twenty tolas is carried by the inland post for half an anna. From the 1st January, 1904, the maximum weight for a registered newspaper admissible for transmission through the post for one-quarter of an anna postage was raised from 4 to 6 tolas. This weight has been further raised, since the 1st October, 1908, from 6 to 8 tolas, concurrently with an increase from 20 to 40 tolas in the maximum weight admissible for half an anna postage.§

The postage on packets other than newspapers was one anna for 10 tolas until 1877, when the rate was reduced to one anna per 10 tolas for book packets and two annas per 40 tolas for book packets and patterns. In 1878 the packet rate was lowered to half an anna per 10 tolas.‖

Parcels.—The present rates of postage, which came into force on the 16th May, 1919, and which are applicable to all classes of parcels, are (1) in the case of parcels not exceeding 440 tolas in weight, 2 annas for 20 tolas, 3 annas for 40 tolas, and 3 annas for every additional 40 tolas or part of that weight; and (2) in the case of parcels exceeding 440 tolas in weight, R3 for a parcel not exceeding 480 tolas in weight, and 4 annas for every additional 40 tolas, up to 800 tolas.

Registration fees.—From the 1st July, 1901, the fee for the registration of a parcel was fixed at a uniform charge of 2 annas.

---

* For detailed information regarding Post Office Savings Banks, see Vol. II of the Statistics of British India

† With effect from 25th November, 1920, the maximum amount for which an insurance may be effected or an endowment assurance may be purchased has been increased from Rs. 4,000 to Rs. 10,000

‡ With effect from 18th April, 1921, the following revised rates have been introduced:—
For a letter not exceeding half a tola in weight – Half anna
For a letter exceeding half a tola but not exceeding one tola in weight – Nine pies.
For a letter exceeding one tola but not exceeding two and a half tolas in weight—One anna
For every additional two and a half tolas or part of that weight—One anna

§ With effect from the 18th April, 1921, the following revised rates have been introduced:—
Not exceeding eight tolas in weight—Quarter anna
Exceeding eight tolas but not exceeding 20 tolas in weight – Half anna
For every additional 20 tolas or part of that weight—Half anna

‖ With effect from the 18th April, 1921, the rate for book and pattern packets is half anna for every five tolas or part of that weight

Official papers.—With effect from the 1st October, 1907, the postage rates for official letters, packets, and parcels are the ordinary rates for those articles.

Foreign postage.—The rates now are—for letters, 2½ annas for the first ounce and 1½ annas for every additional ounce; for postcards, single, 1 anna each; reply, 2 annas; for printed papers, half an anna per two ounces; for business papers entirely or partly in manuscript, 2½ annas for the first 10 ounces and half an anna for every 2 ounces additional; for samples, 1 anna for the first 4 ounces and half an anna for every 2 ounces additional. Since the 1st September, 1918, the rate for letters sent from British India to the United Kingdom and almost all British Possessions, as also to Egypt (including the Soudan), has been fixed as follows:—

For a letter not exceeding one ounce in weight—One and a half annas
For every additional ounce or parts of that weight—One anna

Mail steamer subsidies

The statement below shows the annual subsidies paid under existing contracts for the carriage of mails by steamer on the Indian coasts and rivers and for the maintenance of communication with Ceylon, the Straits, and the Persian Gulf:

		R
Calcutta and Rangoon (three times a week)	Contract from the 1st February, 1913	10,12,000
Chittagong, Akyab, Kyaukpya, Sandaway (and Rangoon weekly)		
Chittagong, Akyab, and Rangoon (weekly)		
Madras and Rangoon (weekly)		
Rangoon, Tavoy, and Mergui (weekly)		
Moulmein, Yeh, Tavoy, Mergui, Victoria Point, and Penang (fortnightly)		
Rangoon, Tavoy, Palaw, Mergui, Kamaw, Bokpyin, Karathuri, Victoria Point, and Maliwun (fortnightly)		
Bombay and Karachi (weekly)		
„ „ *viâ* the coast ports (weekly)		
Karachi and Basra *viâ* the Persian Gulf ports (fortnightly)		
Karachi and Bushire *viâ* the Persian Gulf ports (fortnightly)		
Karachi and Basra *viâ* the *principal* Persian Gulf ports (weekly)		
Negapatam and the Straits Settlements (weekly)		
Rangoon and Penang (weekly)		
Bombay, Mombasa, Zanzibar, Beira, Delagoa Bay, and Durban (fortnightly) with calls on outward voyage every four weeks at the Seychelles, Lamu, Mozambique, and Dar-es-Salaam		
Additional services between any of the ports served by the above-mentioned lines, between any of the ports on the Coromandel Coast and Rangoon		
Rangoon and Bassein	Contract with Burma Government, the annual subsidy paid from 1st January, 1914, is R1,82,540 of which amount paid by the Post Office	57,682
Bassein and Myaungmya		
Prome, Thayetmyo and Minbu

Kyaukpyu and Cheduba *viâ* Ramree		
Akyab and Kyaukpyu		
Kyaukpyu and Sandoway *viâ* Ramree		
Bombay and Goa	Contract for 8 months from 1st October to 31st May, share of annual subsidy	22,400
Aden, Berbera and Zeyla	Contract with the Government of Somaliland Protectorate for 12 months from 1st April, 1918, to 31st March 1919, share of subsidy paid by the Indian Post Office	4,500
	TOTAL	12,08,382

For the lines of postal communication under contract with the Peninsular and Oriental Company an annual subsidy of £395,000 is paid by His Majesty's Government for the combined Eastern and Australian mail services. The Indian share of this subsidy has not yet been assessed.

TELEGRAPHS

[FOR TABLES, SEE PAGES 201 TO 204]

Inland tariff

On the 1st September, 1918, the rates for inland telegrams were increased to (1) express—one rupee and eight annas for 12 words and 2 annas for each additional word, and (2) ordinary—twelve annas for 12 words and 1 anna for each additional word, the address being charged for. On the 1st May, 1914, the rate for cablegrams between India and Europe was reduced from R1-8 per word *viâ* Indo or Eastern to R1-4 per word, but owing to fluctuations in the rupee sterling exchange this rate was reduced to Re 1 per word from the 1st March 1920.* A system of deferred telegrams in plain language at half the usual rates for private telegrams was introduced between India on the one side and the United Kingdom, Germany, France, Algeria, Tunis, Portugal, and the United States of America on the other with effect from the 1st January, 1912, and was subsequently extended to practically all European administrations, besides a number of administrations in the extra European régime. A system of urgent foreign private telegrams at triple rates was introduced from the 25th March, 1920.

Tariff between India and Europe, America, Australia, etc.

Telegraph laws

Act XIII of 1885, as amended by Act XI of 1888 and Act VII of 1914, repealing all earlier Acts (the first being XXXIV of 1854), deals with the privileges and powers of Government in respect to telegraphs, their authority to grant licenses for the establishment of telegraphs, and the regulations under which telegraphs are to be worked. They also provide and regulate the powers of the Department to place telegraph lines and posts on public and private lands, and declare the penalties for infringements of licenses, and for all other offences connected with telegraph lines, and with the transmission of telegrams. Rules and regulations for the acceptance, transmission, and custody of telegrams are published from time to time in the *Gazette of India* by the Governor-General in Council, and have the force of law.

Progress of revenue and expenditure and of messages

The revenue and expenditure of the Department and the number of messages sent, during the five years ending 1919-20, are entered in the table below :—

	Revenue	Expenditure	Surplus + or Deficit —	NUMBER OF MESSAGES					
				INLAND			FOREIGN		
				State	Private	Total	State	Private	Total
	R	R	R						
1915-16 . .	1,85,78,406	1,42,20,653	+43,57,753	1,888,269	14,189,039	16,077,308	62,307	1,403,273	1,465,580
1916-17 . .	2,07,82,482	1,36,74,010	+71,08,472	1,877,832	15,126,819	17,004,651	84,088	1,631,097	1,715,185
1917-18 . .	2,46,85,087	1,27,30,656	+1,19,54,431	1,988,370	15,159,860	17,148,230	110,576	1,878,249	1,988,825
1918-19 . .	3,23,60,223	1,47,12,321	+1,76,47,902	2,119,434	16,032,665	18,152,099	139,018	2,036,951	2,175,969
1919-20 . .	3,77,29,854	2,16,56,685	+1,60,73,169	1,916,898	14,892,829	16,809,727	109,743	2,462,540	2,572,283

The total receipts of the Telegraph Department in 1919-20 amounted to over R3,77 lakhs and the working revenue charges to about R2,17 lakhs, as against R3,24 lakhs and R1,47 lakhs, respectively, in the preceding year. Thus the gross revenue increased by 16·6 per cent, and the expenditure by 47·2 per cent. The surplus amounted to nearly R161 lakhs as against R176½ lakhs in 1918-19. The chief items of receipts were fees on telegrams (R296·4 lakhs), rent of wires and instruments leased to railways and canals (R31·4 lakhs), rent of telephone connections (R13·5 lakhs), and recoveries from guarantors and royalties from telephone companies, etc. (R4 lakhs).

Expenditure debitable to capital account incurred during the year 1919-20 was R98 lakhs, bringing the grand total of such expenditure to the end of the year to R14,67·7 lakhs.

The telegraph system was extended by 603 miles of line and 11,801 miles of wire and cable, and consisted on the 31st March, 1920, of 88,417 miles of line and 369,273 miles of wire and cable.

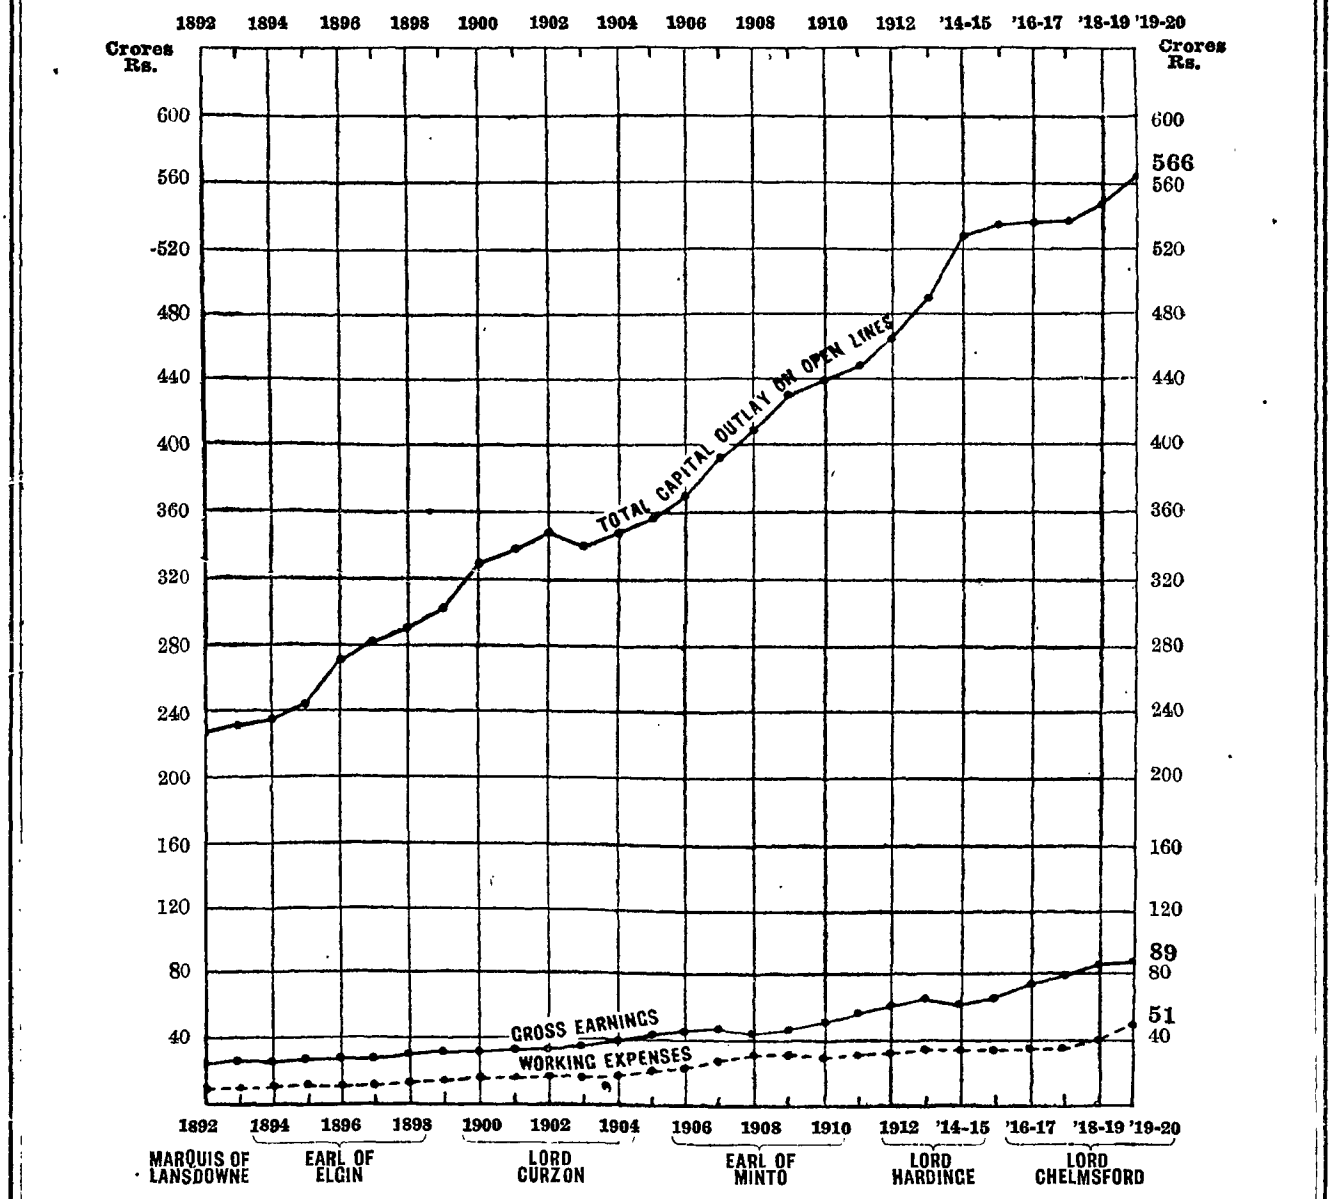
Number of telegrams

The total number of inland telegrams was 16,809,727, of which 1,916,898 were State telegrams and 14,892,829 private telegrams, showing a decrease of 9·6 per cent and of 7·1 per cent, respectively. The revenue derived from them amounted to R44·7 lakhs and R168·6 lakhs, showing an increase of 16 per cent and 9 per cent, respectively.

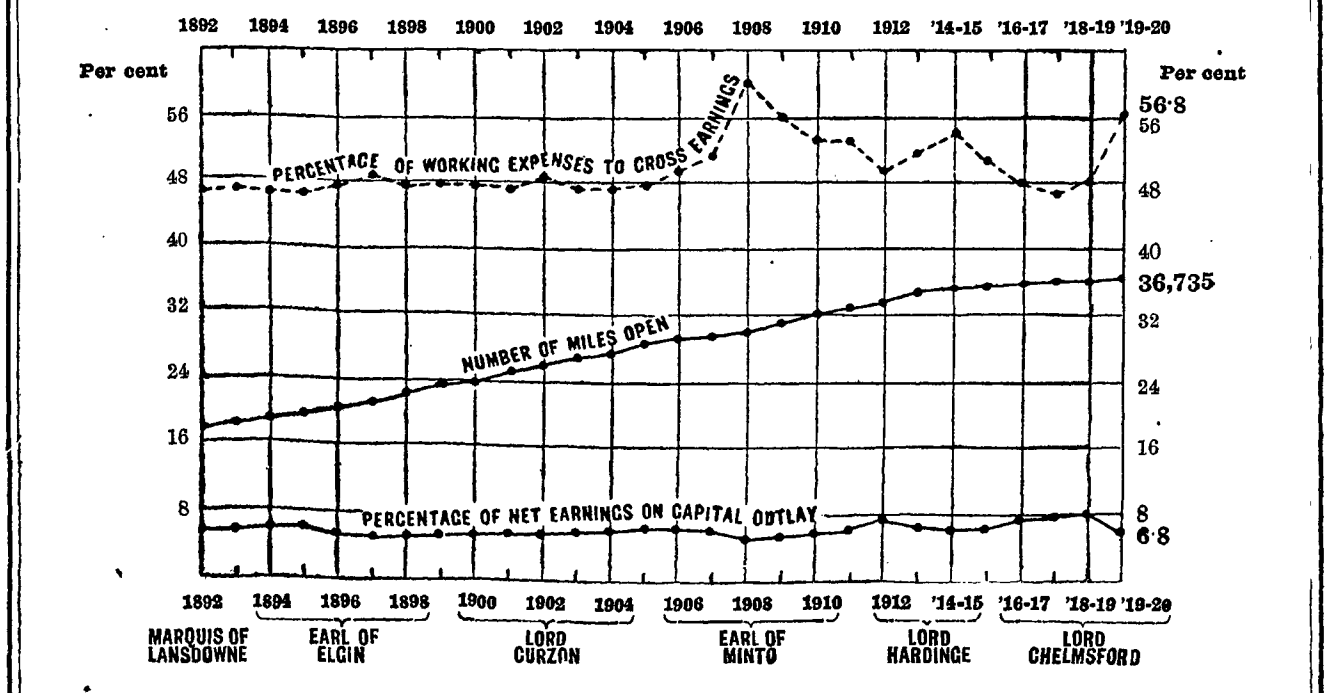
* With effect from the 1st November, 1920, the rate has again been increased to R1-2 per word

2(*a*). CAPITAL OUTLAY, GROSS EARNINGS, AND WORKING EXPENSES OF INDIAN RAILWAYS

(28 years—1892 to 1919-20)



2(*b*). PERCENTAGE OF WORKING EXPENSES TO GROSS EARNINGS, PERCENTAGE OF NET EARNINGS ON CAPITAL OUTLAY ON OPEN MILES



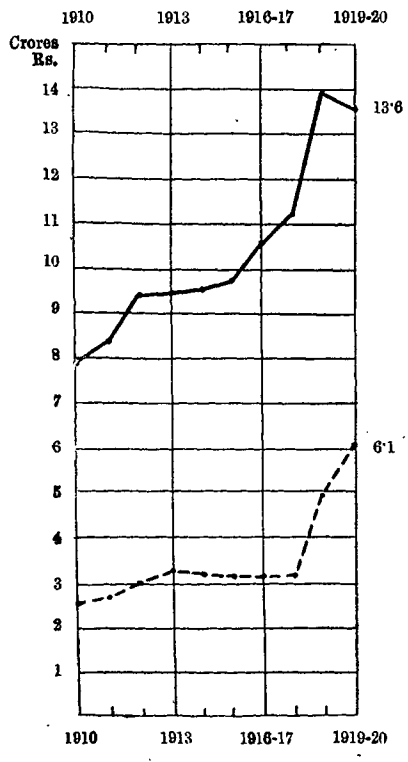
Note.—(1) The total capital outlay refers to open lines (*i.e.*, on mileage earning revenue), including ferries and suspense, of all railways.

(2) The decrease in the Total Capital Outlay in 1903 is due to revision of the outlay adopted for lines purchased by the State from Guaranteed Railway Companies.

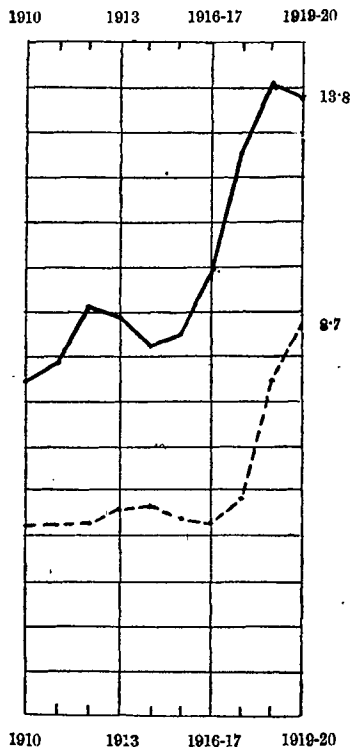
2(c). ANNUAL GROSS EARNINGS, AND WORKING EXPENSES ON THE PRINCIPAL SYSTEMS OF RAILWAYS IN INDIA FROM 1910 TO 1919-20

Gross earnings——————— **Working expenses** - - - - - - - - - - - - - - - - - -

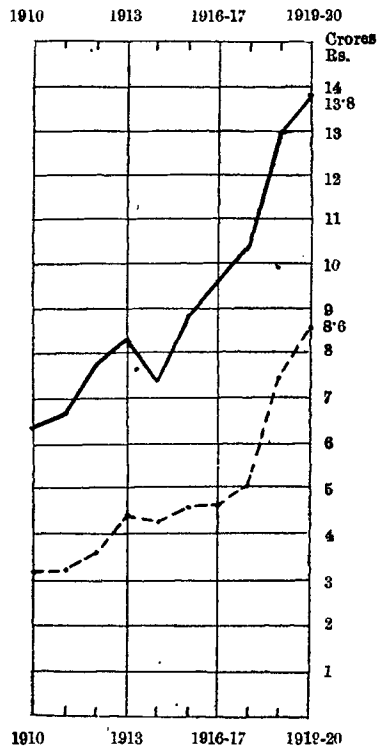
East Indian Ry.



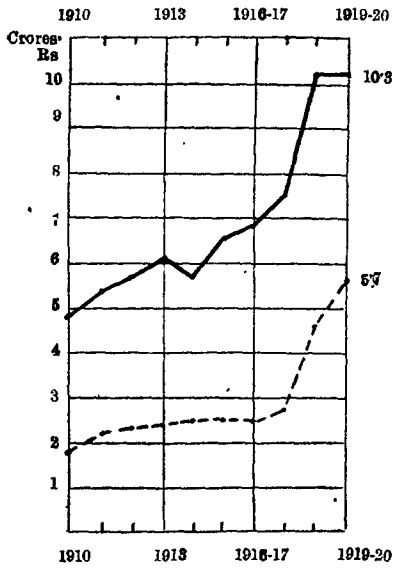
North Western Ry.



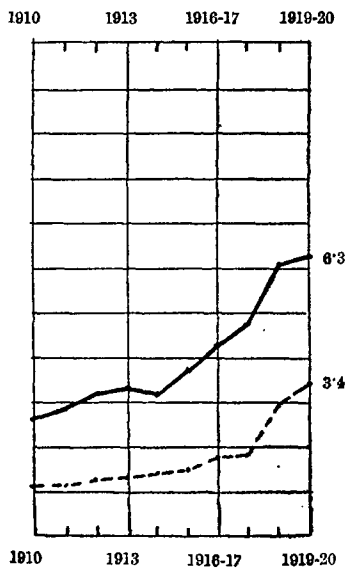
Great Indian Peninsula Ry.



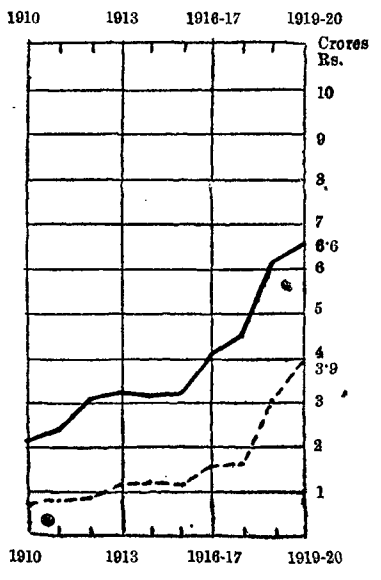
Bombay, Baroda and Central India Ry.



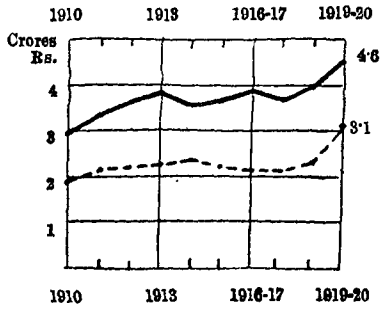
Madras and Southern Maharatta Ry.



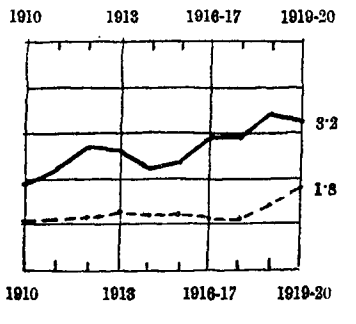
Bengal Nagpur Ry.



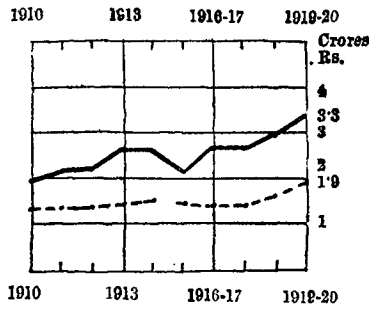
Eastern Bengal Ry.



Oudh and Rohilkhand Ry.



Burma Ry.



Foreign telegrams were 2,572,283 in number, realising nearly R87 lakhs, showing an increase of 18 per cent in number, and 45 per cent in value. State foreign telegrams, numbering 109,743, with a revenue of about R11 lakhs, showed a decrease of 21 per cent in number but an increase of about 8 per cent in value. Private foreign telegrams on the other hand advanced by 21 per cent in number and 53 per cent in value.

Telephones

The gross rental received for telephones provided by the Telegraph Department excluding those supplied to railways and canals was R14,53,386 in 1919, as against R12,41,115 in the preceding year. There are now in use 245 telephone exchanges owned and maintained by Government, of which 62 are operated by the Telegraph Department. The total number of exchange connections at the end of 1919 was 8,975 as against 7,036 on the 31st December 1918. There were also 325 independent non-exchange system with 1058 connections. At the close of the year, 1,558 miles of telephone trunk lines were in use involving 4,104 miles of wire. These trunk lines are all available for public use.

Wireless Telegraphy

There are eight Radio telegraph offices open for communication with ships. Messages for ships can be booked at any telegraph office open for the purpose as advertised in the Post and Telegraph Guide.

Indo-European Telegraph Department

Table No. 98 shows the general statistics of the Indo-European Telegraph Department. The total number of words telegraphed in 1919-20 was 11,834,456 and the revenue derived from messages amounted to £381,723. The total receipts of the Department amounted to £388,926 and the working revenue charges to £252,254. The expenditure debitable to capital account at the end of the year 1919-20 was £1,230,502. [These statistics have no connection whatever with those of the Indian Telegraph Department dealt with in the preceding paragraphs.]

RAILWAYS

[For Tables, see pages 205 to 211]

Sources of statistics

The tables in this volume are compiled from the statistics appended to the Report on the Administration of Railways in India issued by the Railway Board, except table No. 100 (Revenue account of the railways in respect of which Government is financially responsible) which is compiled from the Finance and Revenue Accounts of the Government of India. The Administration Reports on the Railways in India up to 1912 had reference to the working of each calendar year. Owing to the adoption, by the principal railway administrations, of the Government financial year (1st April to 31st March) for all accounts and statistical purposes, the Administration Reports have, with effect from 1st April, 1913, been published for the financial year.

Open mileage

The number of miles of all railways open for traffic at the end of 1919-20 was 36,735, as compared with 32,399 in 1910-11, the increase in the decade being thus 4,336 miles or 13 per cent. Of this, 17,990 miles were of the standard-gauge (5½′), 15,181 miles of the metre-gauge (3′ 3⅜″), and 3,564 miles of other gauges (2½′ and 2′). 15,604 miles of the standard-gauge, 9,447 miles of the metre-gauge, and 1,337 miles of other gauges were owned by Government.

Capital outlay

Up to the close of the year 1919-20 the capital outlay on all railway lines open for traffic amounted to R5,66,38 lakhs, as compared with R4,39,05 lakhs at the end of 1910, the increase in the decade being 29 per cent. Of this total capital outlay of R5,66,38 lakhs, the outlay on State railways amounted to R4,97,87 lakhs. The outlay incurred during 1919-20 on lines in which the State is financially interested amounted to R18,08 lakhs.

Results of working: earnings

The gross earnings of all Indian railways during the year 1919-20 amounted in round figures to R89,15 lakhs, compared with R86,29 lakhs in 1918-19, or an increase of R2,86 lakhs or 3 per cent. This total amount of R89,15* lakhs of gross earnings was distributed as follows: goods traffic R47,12 lakhs, coaching traffic R39,07 lakhs, electric telegraph R18 lakhs, steam boat R27 lakhs, and sundries R2,48 lakhs. The working expenses were R50,66 lakhs, as against R41,80 lakhs in 1918-19, an increase of 21 per cent. The net earnings thus amounted to R38,49 lakhs against R44,49 lakhs in 1918-19, or a decrease of R6,00 lakhs or about 13 per cent. These net earnings yielded a return on the capital outlay (R5,66,38 lakhs) on open lines, *i.e.*, on mileage earning revenue, of 6·80 per cent, as compared with 8·09 per cent in 1918-19 and 7·75 per cent in 1917-18. Details of the results of working in 1919-20 of each railway system, which includes branch lines and lines under the same management, are shown in table No. 102.

Financial results of working of State railways

Up to the end of 1898-99 the railways in respect of which Government was financially interested worked at a loss to the State, but with the termination of the guarantee of the Great Indian Peninsula Railway the revenue has, excepting the single set-back in 1908-09, a famine year in North-Western India, exceeded the expenditure. The net gain to the State in 1919-20 was R9,35 lakhs as against R15,85 lakhs in 1918-19. This surplus gives a net profit to Government (after paying all charges including interest) of about 2 per cent on the capital outlay on State railways; but, as already stated above, the net earnings of all railways yielded a return of 6·80 per cent on the total capital outlay.

Passenger traffic

The total number of passengers carried by Indian railways in 1919-20 was in round numbers 520 millions as against 460 millions in the preceding year, or an increase of about 13 per cent. This total comprised 1,108,000 first class passengers, 6,439,000 second class, 10,200,000 intermediate class, 460,306,000 third class passengers, and 41,974,000 for trips which the holders of season and vendors' tickets are assumed to have made on the prices paid for their tickets. The total earnings from passenger traffic amounted to R33,16 lakhs, or an increase of 14 per cent over the preceding year.

* Includes R3,35,000 for the Aden Railway, details of which are not available

Goods traffic

The total quantity of goods carried during the year 1919-20 was 87,630,000 tons, as compared with 91,161,000 tons in the preceding year, or a decrease of about 4 per cent; and the total earnings from goods traffic decreased from R49,14 lakhs in 1918-19 to R47,12 lakhs in 1919-20, *i.e.*, by 4 per cent. The average rates charged per mile per passenger of each class and per ton of goods carried during the year 1919-20 are stated in the margin as compared with those ten years ago.

		1910	1919-20
		Pies	Pies
Passengers	First class	14·55	16·04
	Second class	6·67	7·59
	Intermediate class	3·15	4·21
	Third class	2·28	2·84
	Season and vendors' ticket holders	1·42	1·54
Goods (per ton)		4·83	4·43

Rolling-stock

The total number of locomotives at the end of 1919-20 numbered 8,982, the number of coaching stock was 24,704 and that of goods stock 194,638.

Train-mileage and earnings per train mile

The total train-mileage (including miscellaneous train miles) was 162,161,000 in 1919-20, as against 158,588,000 in the preceding year. Of this, coaching train miles numbered 52,092,000 and goods train miles 70,061,000. The gross earnings per train mile worked out to R5·5, the working expenses to R3·13, and the net earnings per train mile to R2·37.

Railway staff

The total number of servants in railway employ at the close of the year 1919-20 was 711,690, as against 684,976 in the preceding year. Of this number, 6,941 were Europeans, 10,865 Anglo-Indians, and 693,884 Indians.

Railway accidents

The total number of persons killed by railway accidents during the year 1919-20 was 3,171, as against 2,563 in the preceding year. Of this number, 470 were passengers, 450 railway servants, and 2,251 other persons. The total number of persons injured in 1919-20 was 3,108, of whom 1,395 were passengers, 1,023 railway servants, and 690 other persons.

IRRIGATION

[FOR TABLES, SEE PAGES 212 TO 227]

Irrigation has been resorted to in India from time immemorial as a means of supplementing the natural rainfall and of storing water for use at critical periods. In general it may be said that the security of the harvest depends on the existence of some form of irrigation in many parts of India, except in tracts such as Eastern Bengal, Assam, Lower Burma, and the Malabar Coast where the average rainfall is not less than 70 inches in the year.

Types of irrigation works

Irrigation works are of three great types—lift, storage, and river works—which are represented by wells, tanks or reservoirs, and canals. The wells and smaller tanks are often the property of private individuals, but the larger tanks and the canals are generally undertaken by Government. The statistics given in this volume relate only to works constructed or maintained by Government.

Irrigation canals are not always suitable for navigation, and many canals have been constructed for navigation which do not irrigate a single acre. Not one navigable canal is directly remunerative, and in many cases the navigation receipts do not cover the working expenses. The great rivers are navigable by steamers all the year round, and there are innumerable small rivers, tributaries, creeks, and backwaters, which are fully utilised by small craft.

Classes

Financially considered, irrigation works are classed as "major" and "minor," the former being subdivided into (1) Productive, and (2) Protective, works. The most important irrigation works in India are those

Productive

classed as "Productive works" or works the capital cost of which has been wholly or mainly provided from borrowed money in the expectation that they will prove directly remunerative and that the net revenue derived from them will fully cover all charges for interest within a reasonable time (10 years) after their completion.

Protective

"Protective" irrigation works are those which have been sanctioned in consideration of their value in protection against famine, but without any expectation of their becoming directly remunerative. The cost of their construction has been met from the grant under Famine Relief and Insurance. Capital and revenue

Major works

accounts are kept for all major works, and the revenue due to them, whether directly in the form of water-rates and miscellaneous receipts or indirectly on account of enhancements of land revenue due to irrigation,

Minor works

is shown in the Finance Accounts. Minor works are constructed from funds provided from the ordinary revenue of India, and, broadly speaking, consist of irrigation systems which are not sufficiently important to be treated as major works. Some of them are old works constructed by the former rulers of this country, and extended or restored by the British Government; some are works which have been constructed by the British Government; others, again, are village works originally provided by private or communal effort, the control of which the State has been obliged to assume owing to disputes between the parties interested or their inability to maintain the efficiency of the works. Minor works are of three classes, namely:—(1) Works for which capital and revenue accounts are kept. All expenditure incurred in the construction and development of minor irrigation works of this class is met from the ordinary revenue. (2) Minor works for which only revenue accounts are kept, either because the works are too small or because they have not been constructed by Government, which has simply undertaken their improvement or maintenance. They are credited with a share of the land revenue depending on their maintenance and are debited with all expenditure incurred on construction, extension, improvements, and maintenance. (3) There is a third class of minor works, chiefly existing in the Madras Presidency, for which neither capital nor revenue accounts are kept.

Table No. 109 shows the principal results of the operations for the year 1919-20, while table No. 110 shows the mileage of canals in operation and the area irrigated. Table No. 111 gives the financial results of the works at the end of each year from 1900-01 to 1919-20. The chief features of these tables are given in the margin. At the end of 1919-20 the total mileage of major works was 50,598, and of minor works 5,033 as against 50,122 and 4,958, respectively, at the end of the previous year. The area irrigated during the year 1919-20 was 20,765,000 acres, of which productive major irrigation works covered 18,080,000 acres, minor irrigation works 2,005,000 acres, and protective major irrigation works 680,000 acres. The capital outlay to the end of the year 1919-20 was over R77 crores, divided between the last mentioned classes in the proportion of 76 per cent, 6 per cent, and 14 per cent. respectively. The net revenue realised during the same year amounted to R6,13 lakhs, namely, R5,68 lakhs from productive major irrigation works about R40 lakhs from minor irrigation works, and R4 lakhs from protective irrigation works. In the last ten years the net revenue from irrigation and navigation works has increased by 64 per cent—from R3,73 lakhs in 1910-11 to R6,13 lakhs in 1919-20.

Table No. 112 shows for each province the mileage of different main canals in operation and the area irrigated at the end of each year from 1915-16 to 1919-20. The details for 1919-20 are given in the margin. Madras and the Punjab account for about 12,000 and 15,000 miles of productive major irrigation works with an area of 2 million and 10 million acres, respectively. The United Provinces come next with nearly 10,000 miles and an area of about 3 million acres, and Bombay, and Bihar and Orissa each about 3,000 miles with 1,345,000 and 847,000 acres, respectively. The protective major irrigation works are the largest in the United Provinces with 1,700 miles and about 270,000 acres, the Central Provinces and Bombay accounting for about 1,100 and 600 miles with 150,000 and 135,000 acres, respectively. Under minor irrigation works Bombay stands foremost with 2,500 miles and 938,000 acres.

British Baluchistan	..	..	..	..	..	119	24,625	..

Table No. 113 gives the details of irrigation and navigation in each province in each year from 1915-16 to 1919-20. The details for 1919-20 are summarised in the marginal table. Of the total irrigated area the Punjab contains 9 million acres, Madras 4 million acres, the United Provinces and Bombay about 3 million acres, Bihar and Orissa about a million acres, and Burma 960,839 acres. The average water rate per acre is R5 in the Punjab and British Baluchistan, R4 in Madras, the United Provinces, Bombay and Bihar and Orissa, Burma, Ajmer-Merwara and the North-West Frontier Province, R3 in R2 in Bengal, and R1 in the Central Provinces.

	Area irrigated	Water rate per acre	Navigation		
			Open mileage	Cargo	Passengers
	Acres	R		Tons	Number
Bengal . . .	89,692	1·93	1,396	2,281,889	148 111
Madras . . .	4,081,978	4·43	1,229	1,307,642½	1,403,844
Bombay . . .	2,562,334	2·89	..	..	..

INDUSTRIAL CENSUS*

No. 2.—STATEMENT showing the MAIN RESULTS of the INDUSTRIAL CENSUS in INDIA taken in 1911*

Description of Factory, etc.	Number of factories	NUMBER OF PERSONS EMPLOYED					Number of females employed per 100 males	Province or State, where chiefly found, with percentage of number of persons there employed to total number in India
		Direction, supervision and Clerical Work		Workmen		Total		
		Europeans and Anglo-Indians	Indians	Skilled	Unskilled			
I. Growing of Special products	1,687	1,627	10,346	18,446	779,988	810,407	84	
Coffee plantations	482	249	1,300	1,997	54,077	57,623	79	Madras (37); Mysore (43); Coorg (19).
Indigo plantations	121	98	2,076	2,486	26,135	30,795	16	Bihar and Orissa (100).
Tea plantations	1,002	1,150	6,543	12,074	683,818	703,585	91	Assam (70); Bengal (27).
II. Mines	562	1,164	4,911	71,695	146,317	224,087	38	
Collieries	353	326	3,846	57,068	81,637	142,977	43	Bengal (26); Bihar and Orissa (61).
Gold Mines	12	577	157	6,381	21,477	28,592	8	Mysore (88).
III. Quarries of hard rocks	53	22	289	1,218	10,744	12,273	29	
Stone and Marble Quarries	50	21	257	1,147	10,441	11,866	29	Bombay (32)
IV. Textile Industries	1,487	1,426	18,597	250,580	286,986	557,589	25	
Cotton	1,127	573	12,585	167,191	127,841	308,190	29	Bombay (62)
Jute, hemp, etc.	223	734	4,744	66,065	150,776	222,319	21	Bengal (97).
V. Leather Industries	158	105	829	5,742	6,936	13,612	9	
Tanneries	122	41	589	3,814	4,955	9,399	7	Madras (47); Bombay (17).
VI. Wood, etc., Industries	168	185	1,955	11,506	15,421	29,067	3	
Saw mills	106	120	1,535	2,869	7,966	12,490	6	Burma (79).
Timber yards	27	17	227	5,650	5,551	11,445	..	Bihar and Orissa (83).
VII. Metal Industries	372	1,243	3,886	34,115	31,801	71,045	4	
Machinery and Engineering Workshops.	93	413	1,375	12,661	8,698	23,147	2	Bengal (51); Bombay (23).
VIII. Glass and earthenware industries.	453	67	1,423	10,532	37,444	49,466	24	
Brick and tile factories	411	56	1,197	9,120	35,783	46,156	23	Bengal (48).
IX. Industries connected with Chemical products.	455	586	2,747	12,023	34,002	49,358	13	
Oil mills	208	45	978	1,959	6,763	9,745	20	Bengal 44); Madras (21).
Petroleum refineries	9	212	240	2,942	7,464	10,858	..	Burma (99).
X. Food industries	720	486	4,869	11,243	57,803	74,401	16	
Flour and rice mills	403	201	2,757	5,690	33,726	42,374	12	Burma (70).
XI. Industries of dress	90	209	663	7,263	2,054	10,189	4	
Boot and shoe factories	23	70	240	4,054	799	5,163	3	United Provisnces (64); Bombay (15).
XII. Furniture industries	50	30	235	2,102	1,005	3,372	2	
Furniture factories	46	27	219	1,897	967	3,110	2	Bengal (29); Bombay (16).
XIII. Industries connected with buildings.	163	82	638	3,292	18,156	22,168	30

* Compiled from special official returns

† From 1st January, 1908, the contracts with Indian breweries for the supply of malt liquor to British troops have been discontinued: each British regiment being left free to make it's own arrangements to obtain the necessary supply; as a result, the figures of Army consumption are no longer readily available

‡ The quantity of imported beer is as follows:—

	gallons		gallons
1914	4,213,000	1917	1,842,000
1915	2,818,000	1918	2,003,000
1916	2,889,000	1919	1,910,000

* Compiled from special official returns

(a) Capital of four mills. [See also footnote (g)]

(b) The quantity produced by one of the mills was not reported

(c) Capital of four mills only. [See also footnote (h)]

(d) Excluding 42,000 blankets the weight of which has not been given

(e) One of the mills in the Punjab was closed

(f) Excluding 150,000 blankets the weight of which has not been given

(g) Capital of five mills only. The increase in 1914 is due to the New Egerton Mill having increased its authorised capital from R12 lakhs to R1,00 lakhs

(h) Capital of four mills. The increase in 1915 is due to the Cawnpore Mill having increased its authorised capital from R25 lakhs to R1,50 lakhs.

No. 25.—NUMBER, CAPITAL, LABOUR, LOOMS, and SPINDLES of the WOOLLEN MILLS in INDIA on the 31st December 1919

* Compiled from the Provincial Reports of the working of the Indian Companies Act, VI of 1882, (repealed by Act VII of 1913 which came into force on 1st April 1914) and the annual lists of Joint Stock Companies furnished by the Registrar

(a) The figures up to 1910-11 relate to the provinces of Eastern Bengal and Assam and of Bengal as constituted in October 1905, and those from 1911-12 to the Provinces of Assam, Bengal, and Bihar and Orissa as reconstituted in April 1912

(b) Figures for Delhi included up to 1913-14

(c) Revised figures

† The figures for 1919-20 relate to British India and to the Indian States of Mysore, Baroda, Gwalior and Indore, while those for earlier years to British India and Mysore only

* Compiled from the annual report of the Port Officer and Registrar of Wrecks, Calcutta
‡ Incomplete, the tonnage of some vessels not being known
§ The unusually large number of British vessels lost in 1914 is due to the depredations of German cruisers in Indian waters after the outbreak of war
(*a*) Excluding the tonnage of one British Indian Vessel not given
(*b*) Excluding the tonnage of six British Indian Vessels not given
(*c*) ,, of eight British Vessels not given
(*d*) ,, of two Native crafts not given

MERCHANDISE MARKS*

No. 76.—DETENTIONS under the INDIAN MERCHANDISE MARKS ACT in each official year from 1900-1901 to 1919-20

		Number of detentions(a)				Cases in which detention was ordered on information received	Cases in which detention was followed		
		Counterfeit trade marks or false trade descriptions	Non-description or false description of origin	Unstamped or insufficiently stamped piece goods	Total		By confiscation	By release

(a) For earlier figures, see the 13th issue of "Financial and Commercial Statistics of British India" and the 1st and 6th issues of "Statistics of British India, Part III."

(b) Figures up to 1900-01 relate to the old circle "Assam" and those from 1905-06 to 1913-14 relate to the old circle "Eastern Bengal and Assam"

(c) Figures up to 1913-14 relate to the old circle "Bengal"

(d) The figures for Rajputana and Central India are not Indian State figures but figures of the Imperial Post Office for the Central India Circle now abolished) and the Rajputana Circle (which has also now been merged in the "Central Circle")

(e) Abolished from the 1st July, 1894

(f) Abolished from the 1st July, 1907, and incorporated with the Punjab and Bombay circles. Includes figures from April to June, 1907.

in each CIRCLE, from 1870-71 to 1919-20

NOTE.—The figures for letters, postcards, newspapers, and packets are estimated from the actual figures for 14 days of the year, but for parcels they represent the actual number posted during the year

(a) For earlier figures, see the 13th issue of Financial and Commercial Statistics of British India and the 1st and 6th issues of "Statistics of British India," Part III

(b) From 1899-1900 includes registered newspapers only, other newspapers being counted as packets

No. 86.—NUMBER of PAID, UNPAID, REGISTERED, INSURED, VALUE-PAYABLE, SERVICE PRIVILEGED in each CIRCLE,

* Excludes lines for which information regarding "capital outlay," "gross earnings," etc., is not available
† Capital outlay on lines open, *i.e.*, on mileage earning revenue
(*a*) Estimated
(*b*) The decrease is due to the revision of the capital outlay in consequence of the substitution of the actual expenditure incurred on the construction of lines purchased by the State from Guaranteed Railway Companies as shown in rupees in the accounts of these Railways at date of purchase for the total purchase price converted at £1=R10, which was erroneously taken in stating the Capital expenditure in previous Railway Administration Reports

NOTE.—From 1913-14, the financial year, 1st April to 31st March, has been adopted for reasons explained in the Introductory note

and TRAFFIC of ALL RAILWAYS, from 1853 to 1919-20
